

PRE-CRIMPED CABLES FOR MISSION CRITICAL TERMINATIONS

Harwin pre-crimped cables make it easier to build dependable Gecko and Datamate assemblies without specialist crimp tooling. Factory-terminated contacts help reduce assembly time, improve consistency and protect electrical integrity in demanding applications where vibration, shock and production reliability matter across every build, from prototype through volume production.

Features

- Factory crimped contacts
- Ready to install
- Individually terminated wires
- Consolidate & simplify
- High reliability contact system

Benefits

- Consistent termination quality, reducing assembly risk and eliminating crimp variability
- Reduce assembly time and accelerate production
- Build cable assemblies without investment in crimp tools
- Consolidate your supply chain and simplify inventory by purchasing the required cable length
- Maintains electrical integrity under vibration and shock

Family	Base Contact	Harwin P/N	Gender	Single/ Double Ended	Length (mm)
Gecko	G125-0010005	G125-FW10150AAL9400	Female	Single	150
		G125-FW10300AAL9400			300
		G125-FW10450AAL9400			450
		G125-FW10150AAF9400		Double	150
		G125-FW10300AAF9400			300
		G125-FW10450AAF9400			450
	G125-0020005	G125-FW20150AAL9400		Single	150
		G125-FW20300AAL9400			300
		G125-FW20450AAL9400			450
		G125-FW20150AAF9400		Double	150
		G125-FW20300AAF9400			300
		G125-FW20450AAF9400			450
Datamate	M80-0130005	M80-FW2B0150AAL09400	Female	Single	150
		M80-FW2B0300AAL09400			300
		M80-FW2B0450AAL09400			450
		M80-FW2B0150AAF9400		Double	150
		M80-FW2B0300AAF9400			300
		M80-FW2B0450AAF9400			450
