## Description

Seeed Studio Grove - I<sup>2</sup>C Hub (6 Port) is an I<sup>2</sup>C expansion interface board, with two more connectors than the old Grove I<sup>2</sup>C Hub. The 6 Grove connectors include one input, five outputs, or connect one hub with another to plug in more devices. The hub can also be used to control several synchronous change devices (like LEDs). This 6 grove I<sup>2</sup>C hub comes in 20mm x 40mm in dimensions, same as the old Grove I<sup>2</sup>C hub (4 port).

## Features

- One input and five output
- Connect one hub with another
- Can be used to control several synchronous change devices (like LEDs)
- 20mm x 40mm dimensions
