For the most up-to-date information, visit www.mouser.com or the supplier's website.
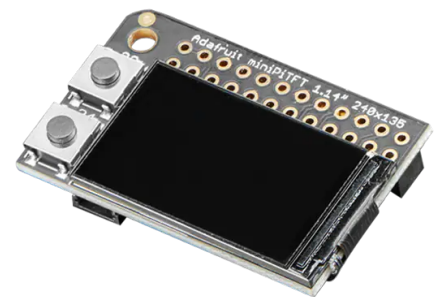

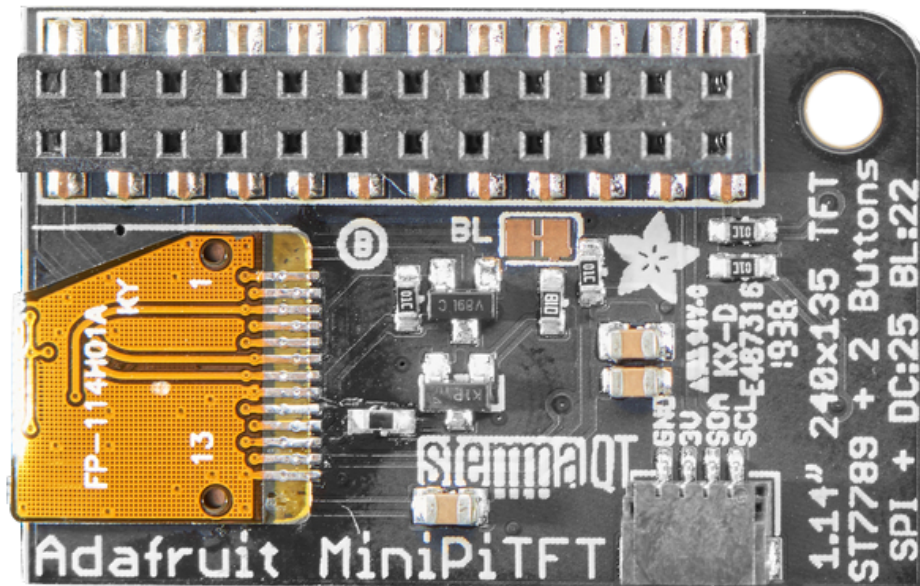

Description

Adafruit Mini PiTFT Color TFT Add-on for Raspberry Pi projects and comes with a full-color 240 x 135 pixel IPS display. This TFT add-on uses only the SPI port and leaves plenty of remaining pins for LEDs, buttons, and sensors. Mini PiTFT features a small display with 1.14" diagonal length, high contrast, and high visibility. This TFT add-on offers a Qwiic/STEMMA QT connector on the bottom for I^2C sensors and devices. Mini PiTFT can be set up as a console output for text and user interface through the Raspberry Pi OS. This charger is RoHS2 compliant and is available in 38.6mm x 24.5mm x 7.6mm dimensions.
