

Jetson Intermediate Kit with Battery Pack

KIT-19408

Product Overview

09/22/2022

For the most up-to-date information, visit www.mouser.com or the supplier's website.

Description

The Jetson Intermediate Kit with Battery Pack from SparkFun provides all of the essential parts needed to start projects with a Jetson Nano. There are a number of parts provided with the kit including a 32GB MicroSD card with Adapter. The Jetson Nano Developer Kit uses a microSD card as a boot device and for main storage. A power supply is included that delivers 5V=2A at the developer kit's Micro-USB port.

This version includes a Lithium-Ion Battery Pack for on-the-go applications. Also included is a one-meter HDMI cable, a two-in-one WiFi and BLUETOOTH® adapter, a Wireless Keyboard with Trackpad, an Imaging Camera with a 136 Degree FOV, and a 2-pin Jumper.

Features

- 1x 32GB microSD card
