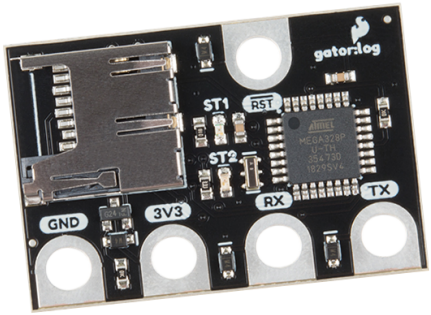
Description

SparkFun Gator:Log - Micro:Bit Accessory Board is a perfect data logging tool featuring ATmega328P microcontroller. This accessory board provides a graphical display to observe changes in data. The micro:bit includes two status indicator LEDs. This accessory board offers serial connections via RX and TX pads. The Gator:log - micro:bit accessory board includes GND and 3V3 pads for 3.3V power connection. This accessory board is ideal for use in any unique creations like robots and music instruments.



Features

- µSD (micro SD) card slot for µSD card for data storage
- Two status indicator LEDs
- Serial connection via RX and TX pads
- GND and 3V3 pads for 3.3V power connection

Specifications

- ATmega328P microcontroller
- 3.3V power connection

Applications

- Robots
- Music instruments
