## Description

DFRobot DC Female to Dual Male Power Cable Pack is a DC5.5\*2.1 which is a convenient and cost-effective way to power up two DC devices with one power source. This power cable pack uses a tinned oxygen-free copper wire core. The cable pack offers a more stable transmission and effectively suppresses external signal interference.

The wire outer sheath employs PVC material, which is insulated, anti-aging, corrosion-resistant, and flame-retardant. The galvanized plug is wear-resistant and antioxidant allowing repeated plugging and unplugging. Typical applications include surveillance cameras, routers, set-top boxes, switches, power adapters, and other devices.

## Features

- Stable transmission
- Effectively suppresses external signal interference
- Wear-resistant
- Anti-oxidation

## Specifications

- 24V voltage
- Mainline 5A branch line 2A current
- 0.15m main line
- 0.2m branch line
- 2464 20 AWG 28/0.15 OD: 4.3mm main line
- 2464 24 awg 11/0.15 OD: 3.0mm branch line
- DC5.5\*2.1 one female two male connectors plug
- Black wire color
- PVC wire material

## Applications

- Surveillance cameras
- Routers
- Set-top boxes
- Switches
- Power adapters
