

XM/XR X-Microwave Mounting Hardware

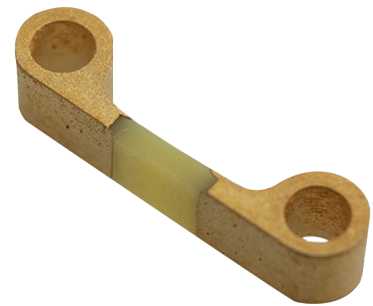

X-Microwave

7/9/2026

For the most up-to-date information, visit [mouser.com](https://www.mouser.com) or the manufacturer's website.

DESCRIPTION

X-Microwave XM/XR Mounting Hardware offer modular design system technology for the RF and microwave industry. This hardware is a platform for an RF and Microwave design system. The X-Microwave mounting hardware features a custom probe called X-MWprobe, solderless interconnects, and thousands of RF drop-in blocks called X-MWblocks. This hardware uses X-Parameter technology, including free models and an online system simulator- powered by Keysight's Genesys and Spectrasys. The X-Microwave mounting hardware prototyping plate and drop-ins are used for evaluation and production. All the XR part numbers are RoHS-compliant.

FEATURES

- Custom probe (called X-MWprobe)
- Solderless interconnect
- Thousands of RF drop-in blocks (called X-MWblocks)
- Prototyping plate
- Drop-ins (used for evaluation and in production)
- Compatible bias and control X-MWblocks
