

Grove Shield for Particle Mesh

103100062

Product Overview

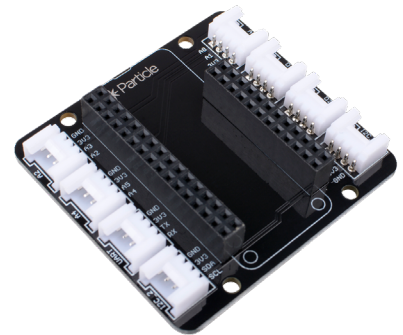

08/10/2022

For the most up-to-date information, visit www.mouser.com or the supplier's website.

Description

Seeed Studio Grove Shield for particle mesh is a particle mesh breakout board in the form of a grove connector. This shield is easy to use, tiny, and allows multiple grove modules to be connected to the particle mesh. The grove shield for particle mesh includes eight grove connectors. This shield is 3.3V compatible.

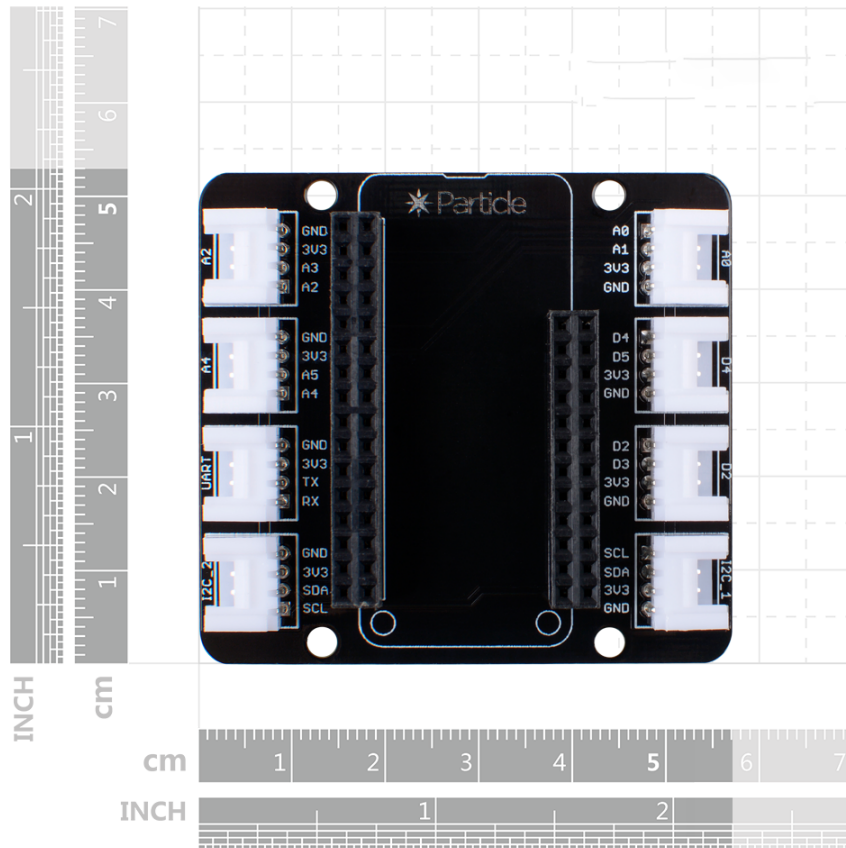

The grove shield for particle mesh requires minimal wiring and no soldering. The sensors, displays, and actuators can be plugged into the shield via the grove cable, and the project can be coded.

Features

- 8 grove connectors:
 - 3 grove analog connectors, 2 analog pins each, and 6 analog pins in total
 - 2 grove digital connectors, 2 digital pins each, and 4 digital pins in total
 - 2 grove I²C connectors
 - 1 grove UART connector
- Minimal wiring and no soldering
- 3.3V compatible
- Easy to use
- Tiny
