

QSFP-DD 16F CABLE ASSEMBLIES

ADDING: 16-fiber QSFP-DD cable jumpers and breakouts for 400G, 800G and 1TB+ networks

QSFP-DD 16F CABLE ASSEMBLIES

QSFP-DD 16F Cable Assemblies are designed to unleash 16-fiber high-speed capabilities tailored for the future of data centers, networking and a wide array of transceiver applications. These cable assemblies come equipped with jumpers and breakouts, empowering 16F systems to achieve groundbreaking performance with data rates of 400G, 800G and 1TB+.

Key Product Information

Category: Fiber Optic Cable Assemblies

Connector: MTP

Fiber Count: 16

Mode: Single-Mode and Multi-Mode

Series

106283 **QSFP-DD 16F Cable Assemblies**

VITAL PRODUCT INFORMATION

16-Fiber Connectivity

As higher data rates become necessary for data center and networking applications, 16-fiber connectivity is critical to achieving increased performance demands while meeting requirements for compact size and compatibility with existing hardware.

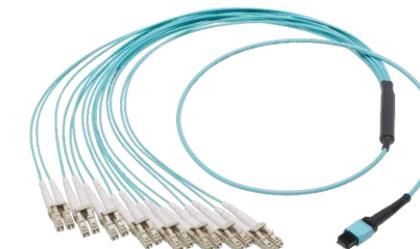

QSFP-DD High-Speed Capability

QSFP-DD 16F cable assemblies are designed for use with QSFP-DD systems and transceivers, transmitting up to 28 Gbps NRZ or 56 Gbps PAM-4 and up to 800 Gbps or higher aggregate within the same footprint as QSFP interconnects.

Multiple Options for Increased Flexibility

QSFP-DD 16F Cable Assemblies offer multiple options to facilitate optical system design flexibility, including single-mode and multi-mode options, MTP-to-MTP jumper lengths between 3.0 and 15.0m, OM3 or OM4 cable and breakouts to LC connectors.

MARKETS AND APPLICATIONS

Server and Storage

- 400G/800G/1TB+ systems
- Servers
- Switches
- Routers

Telecommunications

- Optical transceivers
- Cable distribution and management
- Cloud computing

PRODUCT ADVANTAGES AND FEATURES

Delivers 16-fiber connectivity for high data-rate applications

Design permits use with transceivers in 400G, 800G and 1TB+ applications

Helps ensure reliability and simplified installation with industry-standard MTP and LC connectors

MTP-to-MTP jumpers and MTP-to-LC breakouts are available

Supports high-speed QSFP-DD data transmission rates

16F design transmits up to 28 Gbps NRZ or 56 Gbps PAM-4, with 800 Gbps or higher aggregate

Affords multiple options for increased design flexibility

Cable options include single-mode and multi-mode OM3 or OM4 cable, MTP-to-MTP jumpers and breakouts, and various cable lengths

Provides quick and reliable connection

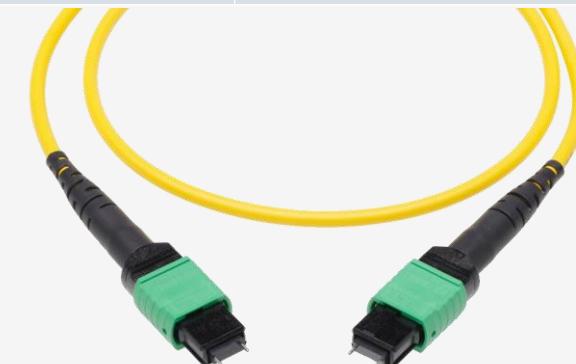

Cable assemblies are fitted with push-pull MTP connector housings

Offers improved return loss performance with angle-polished connectors (APCs)

SM and MM cable assemblies are available with APCs, while multi-mode cables are also available with ultra-polished connectors (UPCs)

Key Specifications

Fiber Types	Single-mode, multi-mode
Fiber Count	16
Connectors	MTP-to-MTP, MTP-to-MDC, MPO-to-MPO, MTP-to-LC
Cable Outside Diameter	3.00mm
Fiber (Core/Cladding)	9/125µm (SM), 50/125µm (MM)
Operating Temperatures	-40 to +70°C

SPECIFICATIONS AND SUPPORTING INFORMATION

Reference Information

Packaging: Individually bagged
 Fiber Count: 16
 Wire/Cable Types:
 Single-Mode (SM): SM
 Multi-Mode (MM): OM3, OM4
 Connector Types: MTP, MDC, MPO, LC
 Designed in: Millimeters
 RoHS: Yes
 Halogen Free: Yes
 LSZH (Low Smoke Zero Halogen) or
 OFNP (Plenum)

Optical

Connector Insertion Loss (IL):
 Single-Mode: 0.75 dB
 Multi-Mode: 0.35 dB
 Connector Return Loss (RL):
 Single-Mode: 55 dB (max.)
 Multi-Mode: 25 dB (max.)
 Low Loss Insertion Loss: 0.35 to 0.5 dB
 Low Loss Return Loss:
 Multi-Mode Flat Polish: 20 dB (max.)
 Multi-Mode APC: 20 dB (max.)
 Single-Mode APC: 50 dB (max.)

Physical

Connector Housings:
 Single-Mode: Green APC
 Multi-Mode: Aqua UPC or Green APC
 Boot Type: Straight
 Cable Lengths:
 Jumpers: 1.0 to 15.0m
 Breakouts: 1.0m
 Fiber Core Diameter: 9 μ m (SM) or 50 μ m (MM)
 Fiber Cladding Diameter: 125 μ m
 Cable Outside Diameter: 3.00mm
 Operating Temperatures: -40 to +70°C
