PRESS RELEASE

Season 12 – 2026 MIAMI E-PRIX

Miami, FL, USA

Home turf. Full attack.

- Round 3 of the ABB FIA Formula E World Championship heads to Miami International Autodrome this Saturday, January 31st, 2026
- Racing on home soil, DS PENSKE arrives in Miami determined to convert momentum into a statement result
- High-energy weekend expected with maximum attack from lights to flag
- Both DS PENSKE drivers, Maximilian Günther and Taylor Barnard, are targeting front-row qualifying positions

Welcome to Miami!

DS PENSKE is set for a thrilling home race as the ABB FIA Formula E World Championship returns to Florida this Saturday, 31 January, for the 2026 Miami E-Prix. Now in its third edition, the event marks a milestone as Formula E races for the first time at the Miami International Autodrome.

In front of 9,000 spectators expected in the grandstands, the all-electric field will tackle a 2.320-kilometre circuit featuring 14 technical corners, designed to push both drivers and machines to the limit. The race distance of 39 laps promises an intense blend of strategy, precision, and flat-out speed.

Racing on home soil, both DS PENSKE drivers arrive highly motivated, with the clear ambition of securing front-row starting positions and converting strong pace into a top result for the team in Miami.

Friday's on-track action includes a Rookie Free Practice session, highlighted by the return of Nikita Bedrin at the wheel of the DS E-TENSE FE25. The session will play a crucial role in the team's preparations, with Bedrin focused on gathering valuable performance and setup data ahead of Saturday's all-important qualifying and race.

With preparations complete and momentum building, DS PENSKE enters race day with focus and determination.

Don't miss the action - the race will start at 2:05pm local time this Saturday 31 January, 2026.

Maximilian Günther – DS PENSKE driver

'Awesome to be racing here in Miami and it's a spectacular venue to host our home race as a team. It's certainly a proud moment for me to drive a DS Penske car around the Hard Rock Stadium. The lap is short, with some great racing opportunities and very technical sections. Fine details will decide who ends up at the front. We're well prepared, arrive with good momentum and all focus is on executing our package to the best. I can't wait to get in the car.'

Taylor Barnard – DS PENSKE Driver

'Miami is the team's home race and that changes the mindset completely. This track demands commitment and precision, and that suits us. We have worked very hard for this weekend and we are coming fully focused. We are here to fight at the front, not to play it safe. With the home crowd behind us, the target is clear: qualify at the front and fight for the win.'

The track – stats:

2.320 km track length

14 Turns

Anti-clockwise

Race start time: 14:05 local time

About PENSKE AUTOSPORT

PENSKE AUTOSPORT is an American racing team founded in 2007 by Jay Penske. The team is headquartered in Los Angeles, California, the largest single metropolitan EV market in the world.

After many successful years competing in IndyCar (2007-2014), the team embraced the shift to electric mobility and became one of the founding teams of the ABB FIA Formula E World Championship. The team motto is the Latin phrase “E Pluribus Unum” – meaning “out of many, there is one.”

ABOUT DS AUTOMOBILES

Founded in Paris in 2014, DS Automobiles is a premium brand aiming to embody the French art of travel. Thanks to an exceptional heritage, exemplified by the 1955 DS and enriched by the wealth of French culture, DS Automobiles offers a global and diverse range with DS 3, N° 4, DS 7 and N°8.

Designed for a clientele seeking something different, who want to travel the world and enjoy every moment, DS creations stand out through their charismatic style, interior refinement, sophisticated technology and first-class comfort. Combined with a suite of bespoke services, they offer a unique brand experience before, during and after each journey.

With numerous records since its entry into Formula E in 2015, including two double Teams’ and Drivers’ titles, DS Automobiles is at the forefront of electrification and sells each of its models in an electrified version. The Brand offers 100% electric drivetrains as well as self-charging and plug-in hybrids with up to 360 horsepower and 4-wheel drive. In 2025, DS Automobiles is accelerating its transition to electric by launching N°4 with 450 kilometres of range and N°8, the new DS flagship providing up to 750 kilometres of range.

With a presence in 40 countries, the DS brand has an exclusive distribution network that includes nearly 450 DS STORES around the world.
