

WarmMark QR - Cloud User Manual

New User Set Up

Each bag of WarmMark QR has a registration code on the bag label. Users can either scan the QR code or follow the link to register for their cloud account.

Scan QR code or follow link

Create Account

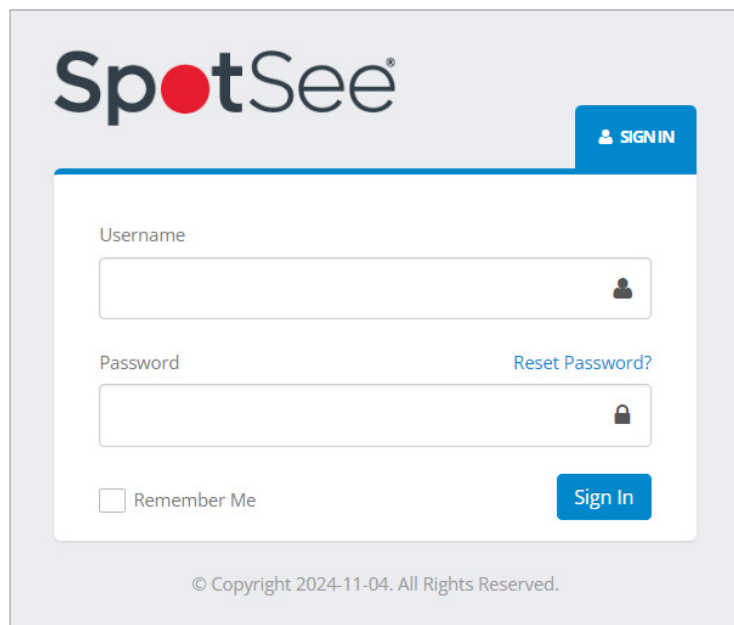

One person per organization should create an account from the bag label. That person can then add users to the account with various permissions. The sensors are unique to the cloud which they are added to so it is important to have all persons who need access within the same cloud. An email will be sent to the user with a temporary password.

The screenshot shows the SpotSee Account Registration web form. At the top left is the SpotSee logo. To its right is a blue tab labeled "ACCOUNT REGISTRATION". The form contains several input fields: "Account / Company Name" with a pencil icon, "Username" with a person icon, "Full Name" with a pencil icon, and "Email" with an envelope icon. Below these fields is a checkbox labeled "I agree to the SpotSee [Terms & Conditions](#)". At the bottom left, it says "Already have an account? [Sign In](#)". At the bottom right is a blue "Register" button. The footer of the form states "© Copyright 2024-10-15. All Rights Reserved."

WarmMark QR - Cloud User Manual

Login with Temporary Password

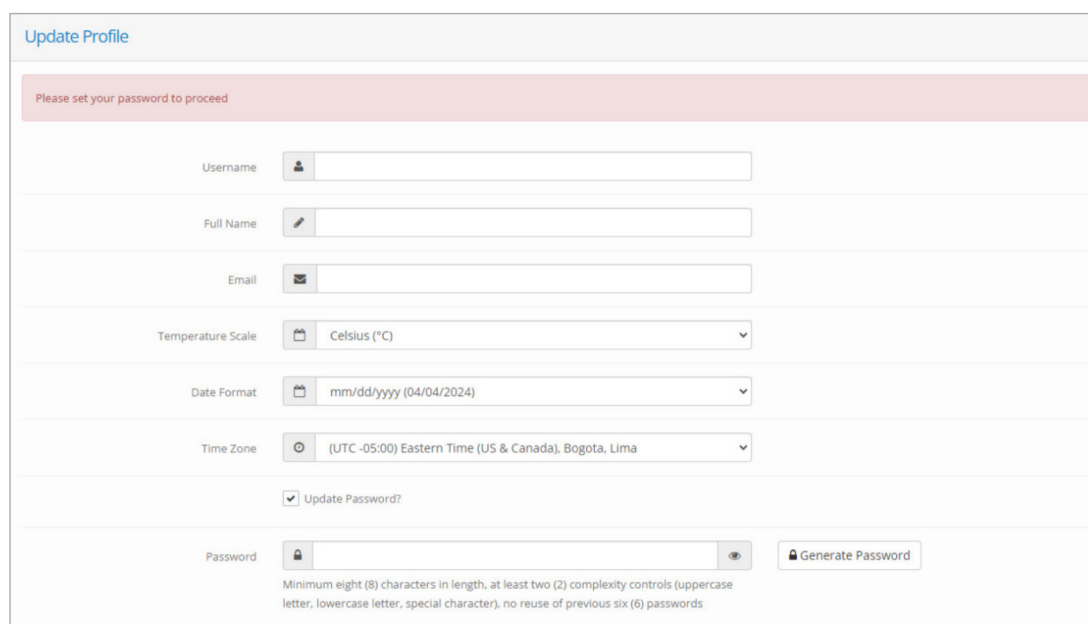

Users can log in at <https://qr.spotsee.io>

The login form features the SpotSee logo at the top left. A blue 'SIGN IN' button with a user icon is positioned at the top right. The form contains two input fields: 'Username' with a user icon and 'Password' with a lock icon. A 'Reset Password?' link is located to the right of the password field. Below the password field is a 'Remember Me' checkbox and a blue 'Sign In' button. At the bottom, a copyright notice reads: '© Copyright 2024-11-04. All Rights Reserved.'

Finish Profile and Password Set Up

After logging in with the temporary password, the user will be prompted to change their password. Each user must have a unique username and a password that meets system requirements.

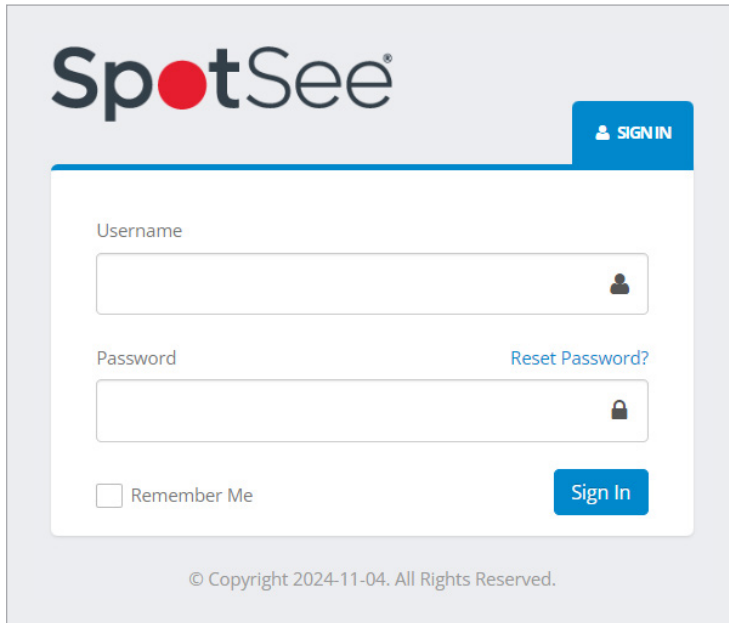

The 'Update Profile' form is titled 'Update Profile' in blue. A red banner at the top states 'Please set your password to proceed'. The form includes several input fields: 'Username' with a user icon, 'Full Name' with a pencil icon, and 'Email' with an envelope icon. Below these are three dropdown menus: 'Temperature Scale' (set to Celsius (°C)), 'Date Format' (set to mm/dd/yyyy (04/04/2024)), and 'Time Zone' (set to (UTC -05:00) Eastern Time (US & Canada), Bogota, Lima). A checkbox labeled 'Update Password?' is checked. At the bottom, there is a 'Password' field with a lock icon and a 'Generate Password' button. Below the password field, a note specifies: 'Minimum eight (8) characters in length, at least two (2) complexity controls (uppercase letter, lowercase letter, special character), no reuse of previous six (6) passwords'.

WarmMark QR - Cloud User Manual

Returning User Sign On

After a username and password have been established, users can sign in by navigating to <https://qr.spotsee.io> and signing in.

The image shows the SpotSee login interface. At the top left is the SpotSee logo. To the right is a blue button with a person icon and the text "SIGN IN". Below the logo is a white login box. Inside the box, there is a "Username" label above a text input field with a person icon on the right. Below that is a "Password" label above a text input field with a lock icon on the right. To the right of the password field is a blue link that says "Reset Password?". Below the password field is a checkbox labeled "Remember Me". To the right of the checkbox is a blue button that says "Sign In". At the bottom of the login box, there is a copyright notice: "© Copyright 2024-11-04. All Rights Reserved."

Dashboard

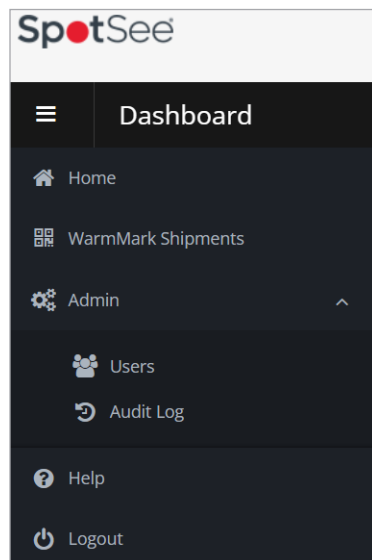

Upon signing in, users will access their Dashboard which provides an overview of the Sensors Scanned, Excursions Detected, Sensors Remaining, Allocated Shipments, temperature excursion heat map and WarmMark Shipments scan data by month.

WarmMark QR - Cloud User Manual

Navigation Bar

When the cursor is positioned over the left side of the **Dashboard**, the **Navigation Bar** will appear. This menu allows the user to choose the appropriate views for information like the Dashboard (Home), WarmMark Shipments, and Admin, consisting of Users and Audit Log.

WarmMark Shipments

By using the **Navigation Bar** to enter the **WarmMark Shipments** screen, the user will display summary information for each of their sensors.

Shipment Condition: Condition read-out status based on the last scan:

No condition recorded

Shipment OK, no temperature excursion detected

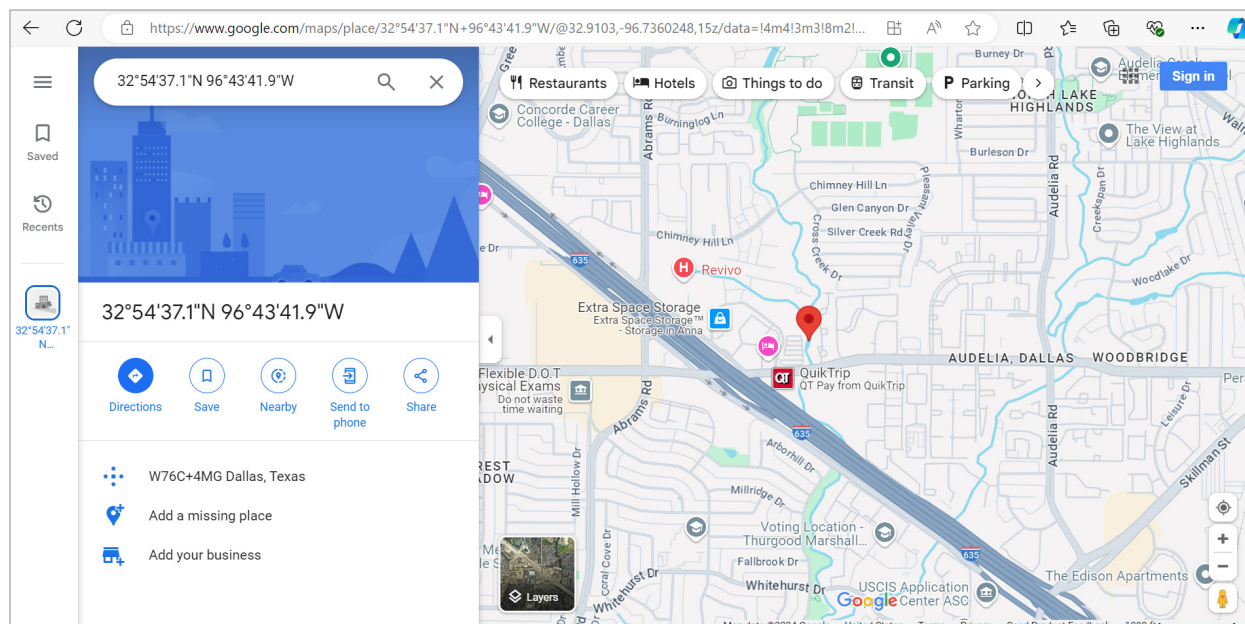

Temperature Excursion Detected

WarmMark QR - Cloud User Manual

Sensor Image: Image of the last scan taken... this is what the end user saw. Clicking on the **View Image** text will open a separate browser window displaying the image.

Location: Location of last scan based on scanning device (cell phone) connectivity. Clicking on the **View Map** text will open a separate browser window displaying the map.

WarmMark QR - Cloud User Manual

Last Scan: Time and date stamp of last scan.

Location Accuracy: High (<100 meters), Medium (between 100 and 1000 meters), and Low (>1000 meters).

History: By clicking on the **below icon under the History column** users can view detailed scan history for specific sensors. Information available includes condition, a scan image, location, and time and date of a particular sensor I.D.

Adding Sensors to Cloud

When first receiving WarmMark QR sensors, locate the bag label on each 100 pack.

Mobile Phone:

- Scan the QR code on bag label with your mobile device

Returning Users:

- Select “Sign In” option at registration page, navigate to the WarmMark Shipments page, and select “Add Sensors” located in the top right corner
- Type or scan the bag ID(s) associated with the bags of sensors you need to add to your cloud

New Users:

- Register for cloud account and follow all prompts. Sensors will be auto added to account upon completing registration

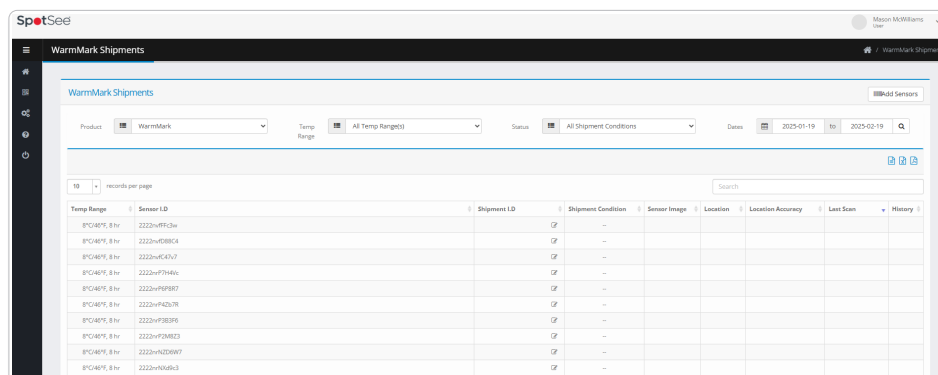

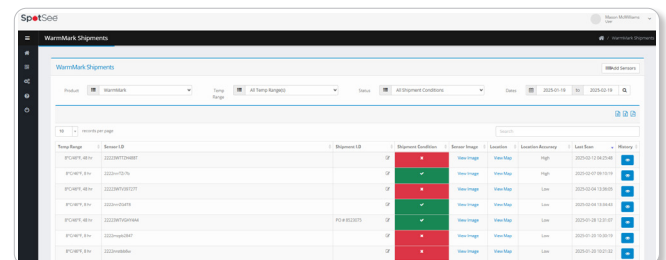

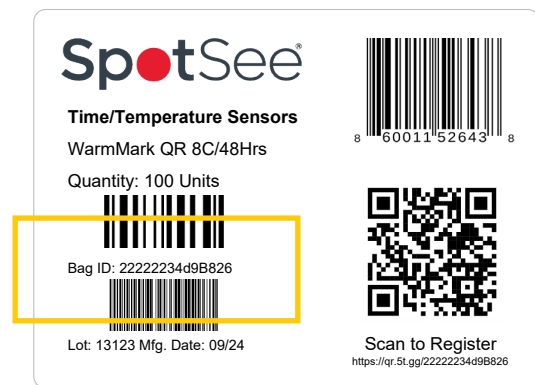

Computer:

Returning Users:

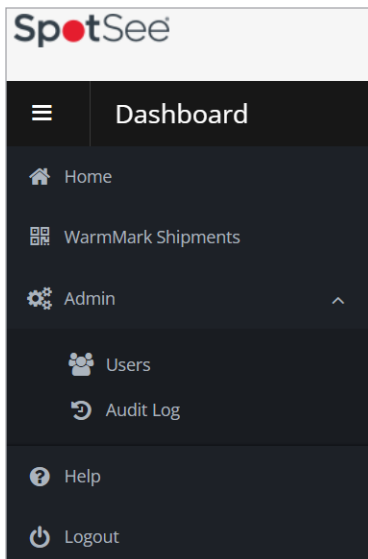

- Log into qr.spotsee.io
- Navigate to the WarmMark Shipments page, and select “Add Sensors” located in the top right corner
- Type or scan the bag ID(s) associated with the bags of sensors you need to add to your cloud

New Users:

- Type QR code URL into browser to register for cloud account and follow all prompts
- Repeat steps 2 and 3 from “Returning Users” section above to add sensors to cloud

The Audit Log captures the creation, deletion, and modification of records within the SpotSee Cloud.

Exporting Data

Located throughout the cloud are various opportunities to export data including the Dashboard (Home), WarmMark Shipments page, within the modal window on the scan history column, and the audit log.
