

WireRail

Multi-Slot Adhesive Cable Tie Mount

The WireRail is a 12-inch adhesive mount with eight integrated cable tie slots, designed for fast, clean, and flexible cable routing. Ideal for paralleling wires, it installs quicker than individual square mounts while reducing parts and labor. Made from heat-stabilized PA66 and available in black or white, WireRail performs in high-heat environments and offers a choice of acrylic foam or rubber-based adhesive, with optional screw mounting for added security.

- Key Benefits:
- Eight tie slots for flexible wire routing
 - Faster than multiple individual mounts
 - High-heat PA66 construction
 - Acrylic or rubber adhesive options
 - Replaces multiple mounts for labor savings
