

STATEMENT
China Export Restrictions on Gallium and Germanium

July 20, 2023

Dear Valued Customer,

On July 3, 2023, China announced plans to begin restricting the export of germanium and gallium effective August 1, 2023. In response to this new restriction, YAGEO Group has investigated the supply chains for all YAGEO, KEMET, and Pulse product lines to determine if these materials are sourced from China. At this time, we can confirm that we have no impact to YAGEO, KEMET, and Pulse supply chains due to this new China export restriction.

We will continue to monitor this situation and provide updated information, if necessary.

Thank you and, as always, we appreciate your business.

A handwritten signature in black ink, reading "Susan Barkal". The signature is fluid and cursive, with the first name "Susan" and last name "Barkal" clearly distinguishable.
