

TagPrint Pro 5

Professional Label Design Software

MADE FOR REAL 

DESIGN.
PRINT.
DONE.

PRO-LEVEL RESULTS – NO MATTER YOUR SKILL LEVEL

Any environment. Any industry. Any challenge.

HellermannTyton's complete labeling solution combines our powerful TagPrint Pro 5 software, our industrial-grade thermal transfer printers and a wide range of printing materials – from heat-shrink tubing and plastic markers to durable industrial labels.

Easy yet powerful label design software

Create 100 percent code-compliant* label designs from templates or from scratch using intuitive wizards. Plus: Print Automation lets you store multi-label jobs and retrieve them with a simple code or by scanning a barcode.

Thermal transfer printers

From low- to high-volume industrial printing capacity, choose the thermal transfer or full-color inkjet printers that suit your applications.

Variety of printing materials

Our portfolio includes labels that resist chemicals, moisture and UV exposure – as well as heat-shrink markers, self-laminating tags and specialty products – to ensure long-term safety and informational messaging in demanding environments.

** For regulated industries that require them.*

GET UP AND RUNNING FAST

Seamless setup. Everything you need.

TagPrint Pro 5 is more than labeling software. It's a full-featured design and print project management solution. So, you can create any type of label or sign – and you can organize all your frequently used print jobs for instant access when you need them.

Whether you're installing TagPrint Pro 5 for the first time or upgrading from a previous version, getting started is easy.

Printer & Software

Purchase any qualifying HellermannTyton thermal transfer or inkjet printer, which includes the software and registration code.

Register on the TagPrint Pro Portal

Visit HellermannTyton.com/tagprint-pro to register your software. If you're an existing user, this unlocks the upgrade automatically.

Activate your software

1. Sign in or create a HellermannTyton account.
2. Enter the registration code from your Download Card and you're ready to start printing!

THE INDUSTRY'S BEST – FULLY UPDATED

Design like a pro. In less time.

TagPrint Pro 5 brings major improvements in speed, usability and flexibility. With a cleaner interface, intuitive navigation and more smart tools to organize and reopen projects, it's easier than ever for any shop employee to run print jobs.

Discover the four most impactful features in TagPrint Pro 5.

New Label Design Wizard – simplify and accelerate the label creation process.

- Integrated product catalog – scan or search by product name, part number or UPC code.
- Instantly preview the product and label design without opening it.
- Add text boxes, QR codes, numbering, dates, logos, symbols and images with ease.
- Access recently used templates or save your favorites.
- Reduce print job size to speed up label printing.

Advanced Data Import – connect and customize label content directly from your Excel or CSV files.

- Link multiple fields and variables – including text, font, size, orientation and other attributes – directly from your spreadsheet data.
- Save significant time working with variable data and repeated templates.
- Perfect for high-volume printing without losing precision or control.

Print Automation – automate jobs by scanning a barcode or entering a project number.

- Organize and store full print job settings – label design, quantity, label size, printer destination and more – all in one project.
- Trigger print jobs instantly by scanning a bar code or entering a project ID – perfect for production floors or repeat orders.
- Boost productivity by up to 23x in full automation mode and reduce operator labor by 40% in semi-automated mode.
- Reduce errors and training needs using custom prompts that guide operators while preventing the ability to make changes.

Multi-Printer Manager – send multiple print jobs to different printers all at once.

- Print to multiple printers simultaneously with one click – each printer handles its assigned task; no need to stop or switch label rolls as you would with a single printer.
- Supports multiple label types in a single Excel file – ideal for mixed printing (heat shrink, cable tags, labels, etc.)
- Save time and reduce errors by automating large, complex print jobs.

SOFTWARE FEATURES – MADE TO DESIGN

Key Feature Comparison to TagPrint Pro 4

TagPrint Pro 5 is more than labeling software. It's a full-featured design and print project management solution. So, you can create any type of label or sign and you can organize all your frequently used print jobs for instant access when you need them. Whether you're installing TagPrint Pro 5 for the first time or upgrading from a previous version, getting started is easy.

Key Feature Comparison Table

Capability	TagPrint Pro 4	TagPrint Pro 5	Key Improvements
User Interface	Traditional and technical layout	Modern, intuitive wizard-based layout	✓ Easier learning curve, faster design process
Print Automation	Requires setup from scratch	Can be created on the fly using Solution Explorer	✓ Seamlessly create your print automation projects with Solution Explorer or import the Tagprint 4.0 print automation database to Tagprint 5.0.
Design Workflow	Manual and basic	Label Design Wizard – guided, intuitive design creation	✓ Workflow allow maximum design and editing ability using solution explorer.
MultiPrint Support	Not available	Print multiple label templates in one batch from the same database	✓ Smart job queueing, printer-specific assignment
Data Management	Separate files per design	TP5 format: bundles multiple designs and tables into one file	✓ Easier file sharing and backups
Design Binding	Not available	Dynamic link between data and table	✓ Enables unique fields per label without separate jobs
Solution Explorer	Limited visibility	Visual explorer for all open files and data sets	✓ Group and manage sets of designs, instantly see what's active
Element Placement	Manual dragging	X/Y coordinate placement supported	✓ Enables precise positioning of label elements
Template Control	Basic template resizing	Continuous templates adjustable in both Wizard and Properties pane	✓ Flexibility for long-format labels
Collaboration	Local-only databases	Share a single print automation database among many users	✓ Easier updates and collaboration across teams
Digitally Signed	Not available	Requires permissions to install	✓ Secure and safe installation
Printer Assignment	Not available	Save printer driver with design	✓ No need to select the printer driver at time of print

DETAILED IMAGING – MADE TO LAST

Precision graphics and text. Unrelenting performance.

HellermannTyton printers keep up with your demands – from cleanrooms to the production floor. Explore the key features that ensure high-performance, ultra-reliable labeling in any environment.

Robust by design:

Resistant to dust, wear, and intensive daily use in industrial environments.

Intuitive interface:

Touchscreens with clear status messages and easy access to templates and custom layouts.

High-resolution printing:

Sharp barcodes, logos, text and symbols from 300 dpi to 4800 dpi for easy-to-read results.

Cutter:

Ideal for cutting individual labels, groups of labels or cut labels to custom lengths.

Data integration:

Supports Excel and CSV files for printing variable data with ease – fully Windows compatible.

Ribbon efficiency:

Up to 300 m ribbon length reduces downtime caused by ribbon changes

Material flexibility:

Multiple materials can be printed at high quality –heat shrink tubing, cable markers, industrial labels and more.
