

Oil and Gas Solutions ➤

Uptime in the highly competitive oil and gas industry is crucial. Hazardous conditions can put workers' safety at risk and impede production. Portable power and lighting products from Woodhead, as well as its Watertite enclosures, plugs, receptacles, cover plates and GCI modules, deliver high performance and reliability to help maximize productivity while protecting workers.

Static Discharge Reels

Designed to provide a ground path for eliminating static buildup by means of cable and ground clamp. Adjustable light constant tension on the cable is provided by the Main Power Spring which in turn provides means for Automatic Cable Retrieval.

Industrial-and Heavy-Duty Cable Reels

Designed for the most demanding of indoor/outdoor industrial applications. Suitable for applications where portable lighting is required and in areas needing movable power, such as mobile electrical equipment. Available with or without cable and accessories such as hand lamps and pendant boxes.

Haztex LED Haz-Duty Light

Developed for harsh environments where uptime and safety are critical, the Woodhead Haztex High-Output LED Haz-Duty Light utilizes an integral LED light engine to provide unmatched durability and light output in a portable hazardous-location rated fixture.
