

# FO distribution boxes with Plug and Play Simple mounting on DIN rails

Fiber optics distribution boxes for mounting on DIN rails expands the proven portfolio of distribution boxes and Plug and Play cabling systems. The versions for DIN rails are ideally suited for use as robust distributors in complex environments.

## Your advantages

- ✓ Saves space thanks to compact, uniform design
- ✓ Time savings with Plug and Play
- ✓ Intuitive mounting with fusion splicing
- ✓ Maximum mounting flexibility with different DIN rail adapter attachment options
- ✓ Different number of positions and connector types for high flexibility during infrastructure planning

## Main features

- FDX-20 design for DIN rails
- IP67 protection when plugged in
- Plug connection from top or bottom possible
- Integrated OM1 fiber
- Variants for M17 MPO and ODC/Q-ODC
- 4-, 12-, and 24-position versions

<p>New product 2022</p> <p><b>i</b> Web code: <a href="#">#2891</a></p>		
<b>Description</b>	<b>FO distributor box</b>	
Number of positions	12	
Fiber type	Multimode GOF G62,5/125 μm OM1	
Socket type	M17 MPO	Q-ODC
Coupling type	6 x LC duplex	
Type	FOC-PP-17S12-LCD6-OM1	FOC-PP-OS12-LCD6-OM1
Item number	<a href="#">1208052</a>	<a href="#">1019679</a>
