

NiMH battery disposal

All Panasonic Nickel Metal Hydride batteries are classified by the federal government as a non-hazardous waste and are safe for disposal in the normal municipal waste stream. Exception: California, which requires non-households to dispose of these batteries in accordance with the California Universal Waste Rules. These batteries, however, do contain recyclable materials and are accepted for recycling by the Rechargeable Battery Recycling Corporation's (RBRC) Battery Recycling Program. Please call 1-800-8-BATTERY for information on recycling your used Nickel Metal Hydride battery or go to the RBRC website at www.rbrc.org for additional information.
