

Stepping Systems Success Story

Industry	: Industrial equipment
Application	: Peeler
Product	: 2-phase stepping motor SANMOTION F2 56 mm 103H7123-04431 2A/phase, customized lead wire Quantity: 1800 pcs/year (3 axes/machine)
Use	: Peeler rotation, fruit rotation and fruit elevating control axis (1 each).
Issue, Request	: Customer wanted to develop a peeler with compact design and was looking for compact components for it.
Solution	: We recommended customer using a customized motor without lead wire sticking out.
Merits	: Customer is able to reduce size of their new product with the motor we recommended.
