

## Stepping Systems Success Story

Industry	: Industrial Equipment
Application	: Switch of electronic valve Flow control of industrial equipment
Product	: 2-phase Stepping Motor SANMOTION F2 42 mm sq. customized motor (103H7121-41****) Shaft processed with gear cutting, equipped with damper and connector
Quantity	: 1200 axes/year (1 axis/machine)
Use	: Adjustment of refrigerator compressor
Request·Issue	: Unstable product lead-time of competitor. (Customer was using motors made by competitor)
Solution	: Provide customized motor with the same function as the one customer was using, and with shorter lead-time than competitor : 4 months → 2 months
Merits	: Stable supply of products secured and reliability of customer's machine improved.
