

# Rack Solutions for Every Application and Space

Securely store, organize, and protect networking equipment with StarTech.com's full range of racks & accessories.

## IT grade durability

- Support up to 3,300+ lbs of servers and equipment
- Tested beyond the rated capacity for reliable real-world performance
- Built with SPCC cold-rolled steel to handle heavy loads without flexing
- Powder-coated finish resists scratching

## Universal compatibility

- Meets EIA-310 standards for universal compatibility
- Works with all OEM server brands and network equipment

## Ready to deploy out of the box

- Tools needed for assembly are included with online videos to guide you
- Cage nuts, screws, and casters (where needed) are included
- Get the right product with unparalleled support before and after installation

## Racks & accessories for every application

- A diverse catalog of floor standing and wall-mounted racks and enclosures
- Fixed and adjustable depth models for maximum flexibility
- A full range of universal shelving, mounting hardware, cable management and other accessories

### Floor Standing Racks

From the office to the server room

- Open or enclosed form factors
- 2 or 4 post
- Fixed or adjustable depth
- Pre-assembled or easy-ship flat pack models
- Casters and mounting hardware in the box

### Wall Mounted Racks

Mount all types of equipment safely even in tight spaces

- Open or enclosed form factors
- 2 or 4 post
- Fixed or adjustable depth
- Innovative hinged and vertical models
- Pre-assembled or flat pack

### Shelves

A depth and format for every application

- 2 and 4 post shelves
- Range of depths for every situation
- Sliding or fixed, solid or vented
- Universal fit for any brand of rack or enclosure
- Same durable construction as our racks

### Power & Accessories

Everything you need to complete your deployment

- Full array of device mounting hardware, including M5, M6, and 10-32 screw and cage nut kits
- Fans and panel blanking kits to control airflow
- Horizontal and vertical power distribution units (PDUs)

### Cable Management

Simplify troubleshooting while improving airflow

- Array of patch panels for cable termination
- Keep things organized and airflow-friendly inside and outside your racks
- Raceways and ducts, hook and loop tape, cable hooks and panels, lacing bars
