

INTRODUCING SMD MOULDED POWER RESISTORS

Type SMQ Series | AEC-Q200 Qualified

- AEC-Q200 Qualified for higher reliability and quality assurance
- Flameproof Coating UL94V0 for increased heat withstanding capability

TE Connectivity (TE) introduces AEC-Q200 Qualified version of our SM series surface mount power resistor, also giving UL94V0 flame resistance. Available in 3 ratings up to 3 Watts and supplied on tape and reel for automatic insertion process.

KEY FEATURE

- Available on tape
- Very wide value range
- Ideal for power circuitry
- Available in 3 ratings up to 3 watts
- Flameproof coating UL94V0
- AEC-Q200 Qualified

APPLICATIONS

- Automotive
- Servo drives
- Factory automation
- Battery energy storage systems
- Power distribution units
