

Product Release Notification

PRN# 8-2017

DATE: 8/23/2017

NEW PRODUCT DETAILS:

Laird Part Number	Description	Suggested Stocking
ST60-SIPT	802.11ac + BT4.2 60 Series SIP hardware package combined with Sterling Series Professional software	1,000pcs
ST60-SIPT-C	802.11ac + BT4.2 60 Series SIP hardware package combined with Sterling Series Professional software (Cut-Tape Packaging)	50pcs
ST60-2230C	802.11ac + BT4.2 60 Series M.2 2230-E hardware package combined with Sterling Series Professional software	50pcs
DVK-60-SIPT	Development Kit for the 60 Series SIP hardware package	25pcs
DVK-60-2230C	Development Kit for the 60 Series M.2 2230-E hardware package	25pcs

DESCRIPTION OF NEW PRODUCTS:

60 Series Wi-Fi + Bluetooth Modules

Powered by the very latest silicon technology, Laird's 60 Series Wi-Fi + Bluetooth modules achieve the best possible connectivity and performance in any RF environment. With industry-leading software, broad OS support, and multiple form factors, Laird's 60 Series offers flexibility to meet your needs. The 60 Series introduces 802.11ac, 2x2 MU-MIMO, Bluetooth 4.2 and Bluetooth 5 ready hardware on one low power module, delivering future-ready cutting edge technology for your product. Building on the security and robustness inherited from Laird's expertise in its 40, 45, and 50 Series modules means ultra-high data rates, improved performance, and the most reliable wireless in crucial applications such as medical and industrial.

- New Wireless Capabilities: Advanced 802.11ac Wave 2, 2x2 MU-MIMO, Advanced Power Save, Optimized Internal BT/Wi-Fi Coexistence, Fast Roam
- New Form Factors: Extremely small 14mm x 13mm SIP module, and M.2 2230-E module
- Bluetooth 4.2: Enables Classic Bluetooth and Low Energy mode with latest security and throughput enhancements, all on Bluetooth 5 ready hardware
- Pre-calibrated for performance: Tuned in manufacturing
