

AHD|Series™

PRODUCT ENHANCEMENT: Arrow Alignment System

Applications

Heavy Duty | Transportation | Diagnostic | Military | Fire & Rescue | Agriculture

Amphenol Sine Systems' AHD Series™ connectors have been enhanced to include the new **Arrow Alignment System** to provide 100% visual verification that the connectors are fully and properly mated. Users will now have two types of feedback to ensure the connector is mated properly; the current audible and tactile "click" of the coupling ring locking in place and now visual alignment of the arrows.
