

New Product Announcement

Mouser Offers New Freescale VF6 Vybrid Tower Controllers

July 1, 2013 – [Mouser Electronics](http://www.mouser.com), Inc. offers the new [Freescale](http://www.freescale.com) Vybrid VF6x Tower System Controllers, featuring a dual-core solution that combines the ARM® Cortex™-A5 and Cortex™-M4 cores.

Freescale Vybrid VF6x Tower System Controllers feature dual USB 2.0 OTG controllers with integrated PHY, dual 10/100 Ethernet controllers with L2 switch, 1.5 MB of on-chip SRAM and a rich suite of communication, connectivity and human-machine interfaces (HMI). The VF6x family is pin and software compatible with the VF[4,5,7]xx families. Vybrid VF6xx devices include multiple serial interfaces including UARTs with support for ISO7816 SIM/smartcards, SPI and I2C and dual CAN modules. VF6x devices can interface to a variety of external peripherals and memories for system expansion and data storage.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 10 million products to locate over 4 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 4 million products online from more than 500 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 400,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

About Freescale

Freescale Semiconductor (NYSE:FSL) is a global leader in embedded processing solutions, providing industry leading products that are advancing the automotive, consumer, industrial and networking markets. From microprocessors and microcontrollers to sensors, analog integrated circuits and connectivity – their technologies are the foundation for the innovations that make the world greener, safer, healthier and more connected. Some of Freescale's key applications and end-markets include automotive safety, hybrid and all-electric vehicles, next generation wireless infrastructure, smart energy management, portable medical devices, consumer appliances and smart mobile devices. The company is based in Austin, Texas, and has design, research and development, manufacturing and sales operations around the world.
