

The real recipe for success for Data, Signal and Power: the Han® F+B Inserts.

The Han® F+B is the first connector for the food industry that can be configured with 25 different inserts. It can be used to transfer bus systems, signals or power with contacts up to 40 A.

HARTING Han® F+B
A clean connection.

The versatile solution.
For clean connections.

The Han® F+B Food & Beverage-Connector.

The Han® F+B is our solution for the demanding hygiene standards of the food and beverage industry. Its easy to clean housing design has been optimised for the requirements and conditions found in the splash zone. The wide variety of possible inserts enables the transmission of Data, Signals or Power. Thus, Han® F+B gives you much more flexibility when designing and planning your modular facilities in comparison to older fixed cabling solutions.
