## For Immediate Release

### **Mouser Electronics Named 2011 Top Distributor by Emerson Connectivity Solutions**

**May 30, 2012** – [Mouser Electronics](#), Inc., regarded as a top design engineering resource and global distributor for semiconductors and electronic components, today announced it has been awarded [Emerson Connectivity Solutions'](#) 2011 Top Distributor Award. Emerson Connectivity Solutions is a global leader in radio frequency technology and environmental optical solutions.

Mouser was recognized with a Top Distributor Award. The prestigious award was presented to Mouser executives at the recent Electronic Distribution Show (EDS) in Las Vegas.

Mouser's broad linecard features product families from Emerson Connectivity Solutions' major connector product lines such as Johnson, Trompeter, Vitelec, Semflex and Aim-Cambridge, providing state-of-the-art connectivity solutions to design engineers and buyers worldwide.

"We are very pleased to accept this Top Distributor Award from our colleagues at Emerson Connectivity Solutions. It is our fourth win of a Top 5 distributor spot for Emerson Connectivity Solutions, which means that our business and marketing strategy is paying off. The recognition affirms our continued commitment to providing design engineers with the most advanced products and technologies through Emerson Connectivity Solutions' popular and extensive line of high quality devices," states Krystal Jackson, Mouser Vice President of Interconnect. "We look forward to another prosperous year together."

Johnson designs and manufactures an industry-leading line of RF coaxial connectors and adapters, which are available in both 50 and 75 ohm versions. Emerson's Trompeter line of patch jacks, RF connectors, cable assemblies, HDTV digital technology and DS3 connectivity solutions is unrivalled. Vitelec is a leading facility for connector products and assemblies and has long established reputation for offering quality and innovation with a wide range of both standard and custom-designed products for electronic and communication industries. Finally, Aim-Cambridge has a universal line of products that offer cost effective, high quality solutions for connectivity.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 8.9 million products to locate over 3 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

### **About Mouser Electronics**

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 3 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 375,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

### **Trademarks**
