### Mouser and IDT Sign Partnership for Global Distribution

**September 4, 2012** – [Mouser Electronics](#), Inc. today announced a new worldwide distribution agreement with [Integrated Device Technology](#), Inc. (IDT), a world leader in the design and manufacture of high-performance analog, mixed signal and power management semiconductors.

Mouser's agreement with IDT means customers have faster access to IDT's newest cutting-edge and power-efficient semiconductor solutions, as well as a trusted source for IDT products. IDT is the world leader in timing, serial switching and memory interfaces, and develops products that deliver system-level innovations that optimize customers' applications and enrich the end-user experience.

"We are very excited at the opportunity to offer IDT's world class semiconductor products to our global customers. Our collaboration with IDT is great news for design engineers who want to speed their time-to-market without sacrificing system-level innovations to create the next great product," says Mike Scott, Mouser's Vice President of Semiconductors. "We look forward to a mutually beneficial partnership."

"Mouser has decades of experience as a trusted, authorized distributor of leading edge components for design engineers. We are excited to partner with them to distribute our products," says David Beadle, Director of Distribution Sales and WW EMS at IDT. "This global agreement will allow us to expand our customer bases with Mouser's best-in-class service and streamlined logistics. We're confident that this union will be a plus for everyone involved."

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and the latest, most technologically advanced components for their newest design projects. Mouser Electronics' website is updated daily and searches more than 8.9 million products to locate over 3 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

### **About Mouser Electronics**

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 3 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 375,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

### **About IDT**

Headquartered in San Jose, California, IDT has design, manufacturing and sales facilities throughout the world. IDT continues to build on its No. 1 positions in timing, serial switching and memory interfaces to expand its mixed-signal content in Communications, Computing and Consumer applications, driven by three major market drivers including cloud computing, consumer mobility and 4G/LTE. The company's product portfolio has become a fusion of analog and system expertise as well as traditional digital competencies, providing customers with complete application-optimized mixed-signal solutions. The IDT 30+ year heritage and innovation in digital technologies coupled with its in-house analog talents and capabilities make it the premier analog and digital company. For more information, visit <http://www.idt.com>.
