## New Product Announcement

### Mouser Offers Latest Quartus II Software from Altera

**September 17, 2013** – [Mouser Electronics](http://www.mouser.com), Inc. is offering the newest version of Quartus® II software from [Altera](http://www.altera.com) Corporation. Quartus II Version 13.0 is now available for digital delivery through [mouser.com](http://www.mouser.com).

Altera Quartus II software is the industry's number one software in performance and productivity for CPLD, FPGA, SoC and ASIC designs. Quartus II development software is a complete software package offering design-entry, simulation, synthesis, place-and-route and design verification. Quartus II software supports the development of complex systems through a suite of full-featured, high-level design environments that include C-based, system- or IP-based and model based design entry tools.

Mouser is offering the latest release of the Quartus II software subscription edition. Version 13.0 allows for an average of 25 percent faster compilation compared with Quartus II software v12.1 and up to three times improvement for some designs. In addition, Quartus II software v13.0 provides an advantage over the nearest competitor in high-end space and superior logic packing capability. Quartus II software v13.0 includes a new notification center that provides remote real-time compiler status.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 20 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 10 million products to locate over 4 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

### **About Mouser Electronics**

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 4 million products online from more than 500 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 400,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

### **About Altera**

Altera® programmable solutions enable designers of electronic systems to rapidly and cost effectively innovate, differentiate and win in their markets. Altera offers FPGAs, SoCs, CPLDs, ASICs and complementary technologies, such as power management, to provide high-value solutions to customers worldwide.

### **Trademarks**

Mouser and Mouser Electronics are registered trademarks of Mouser Electronics, Inc. All other products, logos, and company names mentioned herein may be trademarks of their respective owners.
