

For Immediate Release

Mouser and Schneider Electric Sign Distribution Agreement

June 17, 2013 – [Mouser Electronics](http://www.mouser.com), Inc. has entered into a U.S. distribution agreement with [Schneider Electric](http://www.schneider-electric.com), global specialist in energy management, for industrial automation products that provide a proven platform for simple machine applications.

Schneider Electric offers integrated solutions that make energy safe, reliable, efficient, productive and green. As a leading manufacturer of automation and control solutions, it offers a wide range of products, from simple control components to powerful programmable automation controllers and supervisory software. Mouser is stocking products to support applications that call for simple automation including packaging, pumping, HVAC, automated access and entry control, as well as commercial equipment such as ticket vending machines, automatic dispensers, and advertising panels. Schneider Electric products at Mouser offer unique and compact solutions, including HMIs, control and signaling, sensors, smart relays, switch mode power supplies, temperature controllers, Variable Frequency Drives, and Programmable Logic Controllers.

“Schneider Electric is a great addition to our lineup of Industrial Automation products,” says Keith Privett, Mouser Vice President of Electromechanical, Power & Test. “For designers of simple machines it is significant to have a single source solution for a complete project fulfillment. We can provide that solution.”

“At Schneider Electric we see a world where our industrial customers produce more while using less of their energy,” states Bob O'Donnell, Channel Development Manager at Schneider Electric. “We are pleased to welcome Mouser Electronics as our valued distributor and look forward to a successful collaboration to deliver complete innovative solutions to our joint industrial end user and OEM customers.”

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 10 million products to locate over 3 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 3 million products online from more than 500 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 400,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.
