New Product Announcement

Mouser Distributing TE Connectivity Spin Lock Adapters

September 21, 2012 – [Mouser Electronics](http://www.mouser.com), Inc., an award-winning global distributor for semiconductors and electronic components, today announced it is stocking [TE Connectivity's](http://www.teconnectivity.com) (TE) high-quality spin lock variable angle backshells.

TE introduced the innovative spin lock variable angle backshell (adapter) for Mil-Spec circular connectors. This design enables straight, 45° and 90° cable terminations within the same part. The backshell rotates around the axis of the cable bundle and locks in position which minimizes stress on the wire bundle and helps provide for more robust strain relief than other termination systems. The versatility afforded by TE's design allows engineers to use one part number for multiple applications rather than having to purchase a different backshell for each angle needed. The spin lock backshell is ideal for many aerospace, defense, marine, and heavy industrial applications, and is compatible with MIL-DTL-5015, MIL-DTL-38999, and most other Mil-Spec circular connectors. For more information, visit <http://www.mouser.com/tespinlockadapter/>.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 10 million products to locate over 3 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 3 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 375,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com/>.

About TE Connectivity

TE Connectivity is a global, \$14 billion company that designs and manufactures approximately 500,000 products that connect and protect the flow of power and data inside the products that touch every aspect of our lives. Our nearly 100,000 employees partner with customers in virtually every industry—from consumer electronics, energy and healthcare, to automotive, aerospace and communication networks—enabling smarter, faster, better technologies to connect products to possibilities. More information on TE Connectivity can be found at www.te.com.
