## For Immediate Release

### **Mouser-Sponsored Rebellion Racing Hits the Track in Austin, Texas as Championship Season Heats Up**

**September 17, 2015** – [Mouser Electronics](http://www.mouser.com), Inc. is excited to welcome [Rebellion Racing](http://www.rebellionracing.com) as the team heads to the 6 Hours of Circuit of the Americas endurance race on Saturday, September 19 in Austin, Texas. Mouser is sponsoring the 2015 Rebellion Racing team as it competes for the top position in the FIA World Endurance Championship season.

Driving the [Mouser-sponsored Rebellion R-One](http://www.mouser.com) No. 13 car, the talented team of Dominik “Do Do” Kraihamer, Alexandre Imperatori and Daniel Abt received the Privateer LMP1 Class Award at Le Mans – the team’s third such victory in four years. The sister car No. 12, driven by Nicolas Prost, Nick Heidfeld and Mathias Beche, secured second place. Powered by AER P60 V6 GDI twin-turbocharged engines, the Rebellion team earned the distinction of being the top two non-factory cars in their LMP1 class.

Mouser employees enjoyed a fun race event this week during a “pit stop” visit from the Rebellion team, the drivers and one of the Le Mans race cars at Mouser’s world headquarters in the Dallas/Fort Worth Metroplex. Employees had the special opportunity to receive autographs and photos from the drivers, along with cool racing swag and other great raffle prizes.

“We are thrilled to be able to sponsor Rebellion Racing and have the opportunity show them some Texas hospitality during race week,” said Todd McAtee, Mouser Electronics, Vice President of Americas, Business Development. “The Rebellion drivers are awesome and the Mouser employees really enjoyed having the rare opportunity to meet them in person before the race. The Circuit of the Americas’ course blends the spirit of Le Mans with the most competitive sports car racing in North America, and then adds a Texas flair.”

The Rebellion No. 12 car finished a respectable seventh place in a field of 29 at last year’s event at the Circuit of the Americas, and hopes are high as the team prepares to again tackle the 3.4-mile, 20-turn course. The FIA World Endurance Championship season continues with races in Fuji, Japan, on October 11; Shanghai, China, on November 1; and Sakhir, Bahrain, on November 21.

Mouser is teaming with its manufacturer partner [LEMO](#), a global leader in the design and production of precision custom connection solutions, to sponsor the Rebellion Racing team. Racing is all about speed and endurance, and Mouser sees the racing sponsorships as an innovative way to communicate its performance-driven business model and promote the newest technologies from its manufacturer partners. Mouser distributes LEMO's products, including a wide range of push-pull circular connectors and module connector solutions. Known for exceptional quality and reliability, [LEMO connectors](#) are ideal for harsh environment, medical equipment, test and measurement instrumentation, telecommunications, audio-video, and other applications.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 21 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated many times per day and searches more than 10 million products to locate over 4 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

### **About Mouser Electronics**

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 4 million products online from more than 500 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 500,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.
