

New Product Announcement

Mouser First to Stock Bourns Pro Audio's PTL and PSP Series Slide Potentiometers

Lighted and Motorized Control to Debut at 2017 NAMM Show

January 19, 2017 – [Mouser Electronics](http://www.mouser.com), Inc., the industry's leading New Product Introduction (NPI) distributor with the widest selection of semiconductors and electronic components, is the first to stock the new [PTL](#) and [PSP](#) Series slide potentiometers from the [Bourns® Pro Audio group](#). Bourns is debuting the new potentiometer series in Anaheim, California, January 19 through 22, 2017, at booth #6861 in Hall A at the NAMM Show, an annual event produced by the National Association of Music Merchants (NAMM) to bring together music and sound industry professionals, product brands, buyers, and educators.

[Bourns' PTL Series](#) slide potentiometers with LED and [PSP Series](#) motorized slide potentiometers are now available from Mouser Electronics. The PTL Series features a 15mm lever with either a red or white LED, offering 30 to 10,000 Ohms resistance over a 100mm travel length. The PSP Series offers 1 to 10,000 Ohms resistance, motorized over a 100mm travel length. The motor drive operates from an input supply of 6 to 11 V_{DC}. Both series are RoHS compliant and ideal for [audio](#), broadcast, and light mixing consoles.

In the Bourns booth #6861 in Hall A, NAMM Show attendees can enter for a chance to win a Zemaitis® C24 metal front guitar. This solid-body mahogany guitar features a rosewood fingerboard and intricately engraved aluminum top.

Mouser has been an authorized distributor for Bourns for many years and stocks an impressive array of [Bourns products](#), including circuit protectors, sensors, controls, and resistive components. Mouser continues to be the fastest to offer Bourns' newest products, earning Bourns' [E-Commerce Distributor of the Year awards](#) three times. Bourns is a recognized leader in the industry, known for developing new technologies and expanding manufacturing capabilities to meet their customers' changing needs.

To learn more about the PTL Series potentiometers, visit <http://www.mouser.com/new/bourns/bourns-ptl01-potentiometers/>. To learn more about the PSP Series potentiometers, visit <http://www.mouser.com/new/bourns/bourns-psp01-potentiometers/>.

With its broad product line and unsurpassed customer service, Mouser strives to empower innovation among design engineers and buyers by delivering advanced technologies. Mouser stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is continually updated and offers advanced search methods to help customers quickly locate inventory. Mouser.com also houses data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor focused on rapid New Product Introductions from its manufacturing partners for electronic design engineers and buyers. The global distributor's website, Mouser.com, is available in multiple languages and currencies and features more than 4 million products from over 600 manufacturers. Mouser offers 22 support locations around the world to provide best-in-class customer service and ships globally to over 500,000 customers in 170 countries from its 750,000 sq. ft. state-of-the-art facility south of Dallas, Texas.
