Mouser Signs Global Distribution Agreement with Delta Electronics Power

October 28, 2014 – [Mouser Electronics](http://www.mouser.com), Inc. has entered into a global distribution agreement with [Delta Electronics Power](http://www.deltapower.com), one of the world's leading suppliers of switching [power supplies](#) and major source of power management solutions. The Delta Electronics Power product solutions available from Mouser Electronics include the [CliQ™ and CliQ II DIN Rail Power Supplies](#) and the S24SE/DE 15Watt DC/DC Converters. Each product line is offered in various wattage and input voltage configurations, and is designed for harsh industrial environments and highly stressful operating conditions.

"The Delta/Mouser partnership is about connecting Delta's Power Supply innovations with Mousers' technically demanding customers. We look forward to working together to meet customers' demands," stated David Chiu, Vice President of Sales and Product Management, Delta Products Corporation.

"Mouser is very pleased to add Delta Electronics Power to our list of trusted supplier partners. They are a world-renowned leader of power management solutions, and we're excited to offer their top selling power supplies and DC/DC converters to our customers as part of our [Power Supply Technology](#) portfolio," said Barry McConnell, Mouser Senior Vice President of Products. "We look forward to a successful partnership."

The Delta Electronics Power CliQ and CliQ II DIN Rail Power Supplies available from Mouser Electronics feature a state-of-the-art design that is made to withstand [harsh industrial environments](#), and are ideal for Information Technology (IT), [Industrial](#), Oil and Gas, [Semiconductor](#) and a wide-variety of general applications. The rugged metal and plastic enclosures are both shock and vibration resistant according to IEC60068-2, and each line offers fast wiring, easy installation and a compact design for easy handling. The built in 150% Power Boost feature allows reserve power and reliable startup of loads with a high inrush current. Both product lines are RoHS compliant, have a power supply life expectancy of 10 years and are available in a wide range of input voltages, making either line suitable for international use.

The Delta Electronics S24SE/DE has a 4:1 input voltage range (9V to 36V). It provides various single and dual output voltages including +3.3V, +5V, +12V, +15V, +/-12V, and +/-15V output, power from 10W up to 30W, with up to 90% efficiency. S24SE/DE packed with industry-standard features, such as over current protection, over voltage protection, over temperature protection and remote on/off. heatsink option is also available for more additional thermal requirements. It also meets UL60950-1 safety requirement. And operates between -40°C to +85°C. The S24SE/S24DE can be used for control and automation, transportation, data communication and telecom equipment, test equipment, medical device and equipment.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 20 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 10 million products to locate over 4 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 4 million products online from more than 500 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 400,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

About Delta Electronics Power

Delta Electronics / Power is a multi-billion dollar global company and the world's leading producer of power supplies for the top names in industrial, medical and consumer electronics devices. In 2008, Delta introduced its own brand of standard power supply units (PSU) which offer customers the same world class technology and quality that Delta's ODM partners demand. Due to the fast growing popularity of Delta's CliQ DIN Rail Power Supply and PMC Panel Mount Power Supply series, Delta has been introducing many more standard power supply form factors for a wide-variety of demanding applications.
