Mouser-Sponsored Formula E Team Takes to Hong Kong Street Course

Molex, TTI, AVX Join Mouser to Support High-Tech Electric Car Racing

March 6, 2019 – The [Mouser](#)-sponsored [Formula E](#) team is heading from Mexico to Hong Kong’s 1.85-km Harbourfront street circuit on March 10 for the fifth race of the ABB FIA Formula E Championship.

[Mouser Electronics](#) is sponsoring the GEOX DRAGON [Formula E](#) team throughout the 2018–19 racing season, in collaboration with [TTI, Inc.](#) and valued suppliers [Molex](#) and [AVX](#). This marks the fifth-straight year that Mouser and Molex have sponsored Formula E racing.

Team drivers for Season 5 include three-time World Touring Car Driver’s Champion and multiple FIA Formula E podium finisher José María “Pechito” López, along with Formula 2 race winner and former DRAGON Test and former Formula 1 pilot and reigning IMSA Champion, Felipe Nasr.

Fans can cast a vote for team drivers Nasr and López in FANBOOST, which allows fans to play an active role in influencing the outcome of the race. FANBOOST gives fans the opportunity to vote for their favorite driver and award them an extra boost of power during the race. The five drivers with the most FANBOOST votes are awarded a significant burst of power, which they can deploy in a 5-second window during the second half of the race. FANBOOST voting for the Hong Kong E-Prix opened March 4 and is available all the way up to 15 minutes into the race.

Next the series heads to mainland China for the first time since Season 2 for the Sanya E-Prix on March 23. The series then travels to Europe for the Rome E-Prix on April 13 and Paris E-Prix on April 27. To learn how to register for FANBOOST and to see the full 2019 Formula E schedule, visit www.mouser.com/formula-e.

About Molex

Molex brings together innovation and technology to deliver electronic solutions to customers worldwide. With a presence in more than 40 countries, Molex offers a full suite of solutions and services for many markets, including data communications, consumer electronics, industrial, automotive, commercial vehicle and medical.

About AVX Corporation

AVX Corporation is a technology leader in the manufacture of passive electronic components and interconnect products worldwide. The Passive Components segment manufactures a full line of surface mount and leaded ceramic capacitors, radio frequency (RF) thick and thin film components, multi-layer ceramic and tantalum capacitors, film capacitors, ceramic and film power capacitors, super capacitors, EMI filters, thick and thin film packages, varistors, thermistors, inductors, and resistive products.

About TTI

TTI, Inc., a Berkshire Hathaway company, is an authorized, specialty distributor of interconnect, passive and electromechanical (IP&E) components and the distributor of choice for industrial and consumer electronics manufacturers worldwide. Broader and deeper inventory, leading-edge products and custom supply chain solutions have established TTI as the leading specialist in electronic component distribution. Globally, the company maintains 1.9 million square feet of dedicated warehouse space containing over 850,000 component part numbers. Along with its subsidiaries, Mouser Electronics, Sager Electronics, and TTI Semiconductor Group. TTI employs over 6,000 employees and is represented in over 100 locations throughout North America, Europe and Asia. For more information about TTI, visit www.ttiinc.com.

About GEOX DRAGON

GEOX DRAGON was founded in 2006, by Owner and Team Principal Jay Penske. GEOX DRAGON is headquartered in California (Los Angeles), the largest EV market in the world, and has additional racing operations in Britain (Silverstone, UK). In 2014, GEOX DRAGON became one of the three founding teams of the FIA Formula-E Championship. The team finished Runner-Up (2nd place) in the Championship in 2015 and scored the first ever Formula E race wins in both Germany and Mexico in 2016 and 2017. GEOX DRAGON develops its powertrains under the Penske Autosport marque. The team's engineering and mechanic personnel are some of the finest and most experienced engineers and crew in the world, collectively accumulating over 185 years of racing experience, and achieving over 220+ race wins and 17 Championship titles. GEOX DRAGON's pilots for Season 5 include three-time World Touring Car Driver's Champion and multiple FIA Formula E podium finisher José María López and Formula 2 race winner and former Formula 1 pilot and reigning IMSA Champion, Felipe Nasr. GEOX DRAGON's team motto is the Latin phrase "E Pluribus Unum" - meaning "out of many, there is one."

About Mouser Electronics

Mouser Electronics, a Berkshire Hathaway company, is an award-winning, authorized semiconductor and electronic component distributor focused on rapid New Product Introductions from its manufacturing partners for electronic design engineers and buyers. The global distributor's website, Mouser.com, is available in multiple languages and currencies and features more than 5 million products from over 750 manufacturers. Mouser offers 23 support locations around the world to provide best-in-class customer service and ships globally to over 600,000 customers in more than 220 countries/territories from its 750,000 sq. ft. state-of-the-art facility south of Dallas, Texas.
