Mouser Electronics Further Expands Headquarters, Global Presence, and Widest Product Selection to Meet Growing Demand

June 24, 2019 – [Mouser Electronics](http://www.mouser.com), Inc., the industry’s leading New Product Introduction (NPI) distributor with the widest selection of semiconductors and electronic components, is greatly expanding its large global headquarters and distribution center to meet the needs of its flourishing business well into the next decade. Construction is under way to add more than 125,000 square feet to the distribution center, as well as a new 50,000 square-foot office building on Mouser’s campus, located south of Dallas-Fort Worth, Texas.

Upon completion of the new construction, Mouser’s 78-acre global headquarters and massive distribution center will consist of 1 million square feet to accommodate Mouser’s vast inventory of 1 million unique SKUs for products and technologies from over 750 electronic component manufacturers.

With a positive industry outlook, double-digit revenue growth and the addition of many new manufacturer partners, the industry-leading electronic components distributor is expanding its global footprint and growing its business position to meet increasing customer demand worldwide.

In 2018 Mouser’s sales hit \$1.9 billion, and the company is on track to surpass that number this year. All this comes as Mouser has expanded its full-time global workforce to more than 2,400 and is set to provide [local customer service](#) in four new global locations: Brazil, Poland, Vietnam, and the Philippines.

“With the rapid increase in technological advancements such as IoT, electric vehicles, artificial intelligence, robotics, and 5G, we definitely find ourselves in a very robust and fortunate position,” explained Glenn Smith, Mouser’s President and CEO. “We are planning for future growth as our customer needs increase.”

An industry leader in [new product introductions](#), Mouser stocks the widest selection of authorized components and continues to expand its vast line card with additional manufacturers from major electronic component product categories, including semiconductors, embedded modules, optoelectronics, passives, interconnects and wire/cable assemblies, electromechanical, power, test and measurement, and tools.

“Adding new products and manufacturers reinforces our steadfast commitment to our customers as a single destination for all the components and development tools necessary for the design process,” Smith added. “Our focus on providing the industry’s widest breadth of products is resonating with our growing customer base of engineers and procurement agents in every corner of the world.”

Today, Mouser’s 24-hour global distribution center handles tens of thousands of orders per day, processing and shipping — same day in most cases — to over 600,000 customers in 220 countries/territories. Over the past several years, the global distributor has made significant capital investments in state-of-the-art, automated equipment to process orders with best-in-class efficiency and accuracy.

With its broad product line and unsurpassed customer service, Mouser strives to empower innovation among design engineers and buyers by delivering advanced technologies. Mouser stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is continually updated and offers advanced search methods to help customers quickly locate inventory. Mouser.com also houses data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a Berkshire Hathaway company, is an award-winning, authorized semiconductor and electronic component distributor focused on rapid New Product Introductions from its manufacturing partners for electronic design engineers and buyers. The global distributor's website, Mouser.com, is available in multiple languages and currencies and features more than 5 million products from over 750 manufacturers. Mouser offers 25 support locations around the world to provide best-in-class customer service and ships globally to over 600,000 customers in more than 220 countries/territories from its 750,000 sq. ft. state-of-the-art facility south of Dallas, Texas.
