For Immediate Release

Mouser's Virtual Booth at IMS 2020 Offers Latest in RF and Microwave Technologies

July 28, 2020 – [Mouser Electronics](http://www.mouser.com), Inc., the industry's leading New Product Introduction (NPI) distributor with the widest selection of semiconductors and electronic components, will be an exhibitor at the 2020 IEEE MTT International Microwave Symposium ([IMS 2020](#)) virtual event, streaming live Aug. 4 – 6. In the Mouser virtual booth, Mouser representatives will be ready to chat with visitors about the leading RF products, technologies, and manufacturers available on the global distributor's award-winning website.

IMS is the world's leading convention for technologists involved in every aspect of microwave theory and practice. Offering an expansive exhibition, the conference also features live and pre-recorded workshops, technical sessions, panel sessions, short courses, interactive forums, competitions, and a wide range of other technical and virtual social opportunities.

Mouser representatives will be available in the virtual booth to introduce conference attendees to the newest products and technologies from Mouser's vast line card of over 800 suppliers, including the latest offerings from Amphenol SV Microwave, Microchip Technology, Molex, NXP Semiconductors, Qorvo, Silicon Labs, STMicroelectronics and more. The Mouser booth will also have information on the new eBook from Qorvo and Mouser, titled [Next-Gen Wi-Fi Applications and Solutions](#). The exclusive design guide that features articles from industry experts to help engineers design products that fully achieve the benefits of Wi-Fi 6.

Attendees can also learn about the latest [technical resources](#) from Mouser, including the [Methods](#) eZine, eBooks, and newsletters, which provide exclusive information about application and prototype development for a speed-to-market advantage.

In addition to hosting the flagship IMS convention, the IEEE's Microwave Week also features the Radio Frequency Integrated Circuits (RFIC) Symposium and the Automatic RF Techniques Group (ARFTG) Conference. These conferences offer attendees the opportunity to learn from and connect with engineers, designers, product experts, members of the media, and other industry leaders.

IMS 2020 begins streaming live on Aug. 4, with on-demand streaming available Aug. 4 – Sept. 30.

As an authorized distributor, Mouser Electronics is focused on the rapid introduction of new products and technologies, giving customers an edge and helping speed time to market. Over 800 semiconductor and electronic component manufacturers count on Mouser to help them introduce their products into the global marketplace. Mouser's customers can expect 100% certified, genuine products that are fully traceable from each manufacturer.

With its broad product line and unsurpassed customer service, Mouser strives to empower innovation among design engineers and buyers by delivering advanced technologies. Mouser stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is continually updated and offers advanced search methods to help customers quickly locate inventory. Mouser.com also houses data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a Berkshire Hathaway company, is an award-winning, authorized semiconductor and electronic component distributor focused on rapid New Product Introductions from its manufacturing partners for electronic design engineers and buyers. The global distributor's website, Mouser.com, is available in multiple languages and currencies and features more than 5 million products from over 800 manufacturers. Mouser offers 27 support locations around the world to provide best-in-class customer service and ships globally to over 630,000 customers in 223 countries/territories from its 1 million sq. ft. state-of-the-art facilities south of Dallas, Texas.
