Mighty “Mouser Machine” Makes 2020 Debut at Indianapolis Speedway

Mouser Electronics and Molex Sponsor IndyCar Team

July 1, 2020 – With the 2020 [IndyCar](#) season finally underway following the June 6 opener at Texas Motor Speedway, the [Mouser Electronics](#)-sponsored car will show off a special Mouser Blue livery at the GMR Grand Prix in Indianapolis on July 4.

Driver Santino Ferrucci will pilot the Mouser- and [Molex](#)-sponsored car through the 14 turn, 2.439-mile Indianapolis Motor Speedway road course in the sharp and sleek Mouser Machine. The race marks the third time in as many years that the No. 18 Dale Coyne Racing with Vasser-Sullivan car will fly the Mouser colors.

“We wish the Vasser-Sullivan team the best of luck as they return to Indianapolis Motor Speedway in the ‘Mouser Machine.’” said Todd McAtee, Mouser Electronics’ Vice President, Americas Business Development. “The collaboration between the team, Mouser Electronics, and Molex is a testament to our collective commitment to excellence.”

“We are excited to cheer on the team as the No. 18 car flies Mouser and Molex colors July Fourth weekend,” said Fred Bell, Vice President of Global Distribution, Molex. “All of us at Molex are honored to once again team up with Mouser to sponsor the No. 18 car this season. This sponsorship further demonstrates our long-term relationship with Mouser, commitment to our joint customers and driving new innovations in the automotive industry.”
