Mouser/Molex-Sponsored IndyCar Team Takes Third in Alabama

Dale Coyne Racing with Vasser-Sullivan Team Gears Up for Streets of Long Beach

April 11, 2019 – Following two top-ten finishes in a row, the Mouser-sponsored [Dale Coyne Racing with Vasser-Sullivan](#) team will take to the track April 14 in the Acura Grand Prix of Long Beach, Calif. Starting from fifth position at the Indy Grand Prix of Alabama, driver Sebastien Bourdais stayed in the top three — including leading eight laps — throughout most of the race, powering through to a strong third-place finish.

[Mouser Electronics](#), Inc., the industry’s leading New Product Introduction (NPI) distributor with the widest selection of semiconductors and electronic components, will be cheering on Bourdais and the Vasser-Sullivan No. 18 car as they compete on the 1.968-mile street course that encircles the Long Beach Convention Center.

“Bourdais and the team were on fire this weekend!” said Todd McAtee, Mouser Electronics’ Vice President, Americas Business Development. “They had the car dialed in and, thanks to amazing racing and a daring pit strategy, pulled off a spectacular finish.”

Mouser is very proud to once again sponsor the Dale Coyne Racing with Vasser-Sullivan team throughout the entire 2019 NTT IndyCar Series, joined by valued supplier [Molex](#). The 17-race season — the 24th of the IndyCar Series — includes the 103rd running of the famed Indianapolis 500, set for May 26. Champion Driver Sebastien Bourdais, the pilot of the Mouser- and Molex-sponsored No. 18 IndyCar, finished last season in the top ten.

Mouser first sponsored IndyCar racing in 2011 as a way to communicate its performance-driven business model and promote the newest technologies. The Mouser-sponsored car won the Indianapolis 500 in 2013.

After the Acura Grand Prix of Long Beach, the series travels to the famed Indianapolis Motor Speedway for two different races: the INDYCAR Grand Prix on May 11, followed by the 103rd Running of the Indianapolis 500 on May 26.
