Mouser-Sponsored IndyCar Team Eyes Strong Finish at Monterey

Final Race Marks Exciting End to 2019 Season

September 18, 2019 – Mouser Electronics and Molex will be cheering on Sebastien Bourdais and the No. 18 [Dale Coyne Racing with Vasser-Sullivan](#) car as this year's thrilling season comes to an end with the final race in Monterey, Calif., on Sept. 22.

Coming off the nail-biting IndyCar race at the Portland International Speedway in Oregon, driver Bourdais is gearing up for the season's last race. He earned 23 points at the Grand Prix of Portland, pulling within just four points of tenth place in the driver standings. Bourdais avoided the multicar crash on the opening lap and expertly piloted the [Mouser](#)- and Molex-sponsored No. 18 car to a top-10 finish.

Bourdais secured the fastest lap of the weekend in Portland and earned his eighth top-10 finish so far this season, including an April podium finish in Alabama. The team looks to end the season on a high note as the 2019 season comes to an end at the Firestone Grand Prix of Monterey. Bourdais and the No. 18 car have led a total of seven laps this season and look to increase that during the final race.

[Mouser Electronics](#), the industry's leading new product introduction (NPI) distributor with the widest selection of semiconductors and electronic components, is proud to team up with valued supplier [Molex](#) to sponsor Bourdais and the Dale Coyne Racing with Vasser-Sullivan team for the entire 2019 NTT IndyCar Series. The 2019 season marks the 24th year of the IndyCar Series.

Mouser first sponsored IndyCar racing in 2011 as an inventive way to communicate its performance-driven business model and promote the newest technologies. The Mouser- and Molex-sponsored car won the Indianapolis 500 in 2013, as well as the 2017 and 2018 series-opening races at St. Petersburg, Fla.

The Firestone Grand Prix of Monterey is the 17th and final race of the 2019 season, which has crisscrossed the U.S. and Canada. The race features 90 laps on the 2.238-mile WeatherTech Raceway Laguna Seca, full of heart-pounding elevation changes and the famously difficult turn, The Corkscrew.
