

New Product Announcement

Laird Connectivity Mini GNSS Antenna Now at Mouser

March 1, 2021 – [Mouser Electronics](http://www.mouser.com), Inc., the industry's leading New Product Introduction (NPI) distributor with the widest selection of semiconductors and electronic components, is now stocking the GNS1559MPF ([Mini GNSS](#)) from [Laird Connectivity](#). The Mini GNSS is a rugged, high-performance, and cost-effective solution for most GNSS or asset tracking applications.

The [Laird Connectivity Mini GNSS](#) has circular polarization covering frequencies from 1559 – 1606 MHz and excellent out-of-band rejection via 2-stage filtering that provides over 80dB of isolation of cellular bands. The small form factor makes it easy to install on or in vehicles, cargo containers, or other assets where global navigation is required. It is designed to withstand impact and features an IP67-rated housing to prevent water and dust intrusion. The antenna can be configured with different cable types, in varying lengths and with various connector types.

Laird Connectivity has a full line of high-performance, cost-effective [GPS/GNSS antennas](#) for a wide range of telematics or GPS/GNSS applications, including fleet and logistics management, general [automotive](#) aftermarket, highway construction, land surveying and management, and [warehouse](#) management.

To learn more about the Mini GNSS, visit <https://www.mouser.com/new/laird-connectivity/laird-gns1559mpf-mini-gnss/>.

As a global authorized distributor, Mouser offers the world's widest selection of the newest semiconductors and electronic components — in stock and ready to ship. Mouser's customers can expect 100% certified, genuine products that are fully traceable from each of its manufacturer partners. To help speed customers' designs, Mouser's website hosts an extensive library of technical resources, including a [Technical Resource Center](#), along with product data sheets, supplier-specific reference designs, application notes, technical design information, engineering tools and other helpful information.

About Mouser Electronics

Mouser Electronics, a Berkshire Hathaway company, is an authorized semiconductor and electronic component distributor focused on New Product Introductions from its leading manufacturer partners. Serving the global electronic design engineer and buyer community, the global distributor's website, mouser.com, is available in multiple languages and currencies and features more than 5 million products from over 1,100 manufacturer brands. Mouser offers 27 support locations worldwide to provide best-in-class customer service in local language, currency and time zone. The distributor ships to over 630,000 customers in 223 countries/territories from its 1 million-square-foot, state-of-the-art distribution facilities in the Dallas, Texas, metro area. For more information, visit <https://www.mouser.com/>.

About Laird Connectivity

Laird Connectivity simplifies wireless connectivity with market-leading modules, antennas, IoT devices, and customer-specific wireless solutions. Our products are trusted by companies around the world for their performance and reliability. With best-in-class support and comprehensive design services, we reduce your risk and improve your time-to-market. When you need unmatched wireless performance to connect your applications with security and confidence, Laird Connectivity Delivers — No Matter What.
