## New Product Announcement

# Mouser Electronics Now Shipping Enhanced Open Source MinnowBoard Turbot

January 21, 2016 – [Mouser Electronics](http://www.mouser.com), Inc. is now stocking the [MinnowBoard Turbot](#), an enhanced [open source](#) development board.

The [MinnowBoard Turbot](#), now available from Mouser Electronics, is a powerful and expandable open-source platform that allows endless customization and integration potential. This compact embedded board is compatible with MinnowBoard MAX but adds the higher-performing dual-core Intel® [Atom](#)™ processor, FCC and CE certification, and designs and features that support commercial usage. With 2GBytes of DDR3L, Intel® HD Graphics, micro HDMI, Gigabit Ethernet, USB 3.0 and 2.0, and a [Lure expansion board](#) interface, the MinnowBoard Turbot combines robust hardware with support for several different operating systems (including Windows 10, Android 4.4, Debian GNU/Linux, Ubuntu, and Fedora) to help designers develop high-performance embedded applications.

To learn more about the MinnowBoard Turbot, visit <http://www.mouser.com/new/adi-engineering/minnowboard-turbot/>.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 21 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 10 million products to locate over 4 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

### **About Mouser Electronics**

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 4 million products online from more than 500 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 500,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit [www.mouser.com](http://www.mouser.com).

### **About ADI Engineering**

ADI Engineering is a new breed of original design manufacturer (ODM) committed to providing innovative networking, communications, IoT, and embedded products for the next generation. ADI Engineering embraces the toughest technical challenges and consistently delivers leading-edge OEM products that not only anticipate upcoming market trends, but also achieve low price points without sacrificing quality or performance, thanks to our deep technical expertise, targeted and differentiated designs, and global manufacturing scale. ADI Engineering is a division of Silicom.

### **Trademarks**

Mouser and Mouser Electronics are registered trademarks of Mouser Electronics, Inc. All other products, logos, and company names mentioned herein may be trademarks of their respective owners.
