## For Immediate Release

# Mouser and Molex-Sponsored IndyCar Team Ready for Action at 104th Indianapolis 500

**August 19, 2020** – [Mouser Electronics](http://www.mouser.com) is busy gearing up to support the [Dale Coyne Racing with Vasser-Sullivan](#) team as they put their grit and speed to the test at this year's 104th running of the famed Indianapolis 500 on Aug. 23. After several changes to the 2020 [IndyCar](#) schedule, this postponed signature event has been long anticipated by racing fans who are eager to see many of the world's expert drivers showcase their 225-mph-driving skills at the legendary oval track.

Mouser, the industry's leading new product introduction (NPI) distributor with the widest selection of semiconductors and electronic components, is proud to again team up with valued manufacturer partner [Molex](#) to sponsor the Dale Coyne Racing with Vasser-Sullivan team for the 2020 NTT IndyCar Series. The team is just two points out of the Top 10 for 2020, making the famous 500-mile race an even more significant battleground.

Mouser first sponsored [IndyCar](#) racing in 2011 as an inventive way to communicate its performance-driven business model and promote the newest technologies. The Mouser- and Molex-sponsored No. 18 car and team won the Indianapolis 500 back in 2013, as well as the 2017 and 2018 series-opening races at St. Petersburg, Florida.

The Indy 500 will be televised on NBC in the U.S., Sunday, Aug. 23, without fans in the stands. After the Indianapolis 500, the IndyCar series travels to Madison, Illinois, for the Bommarito 500 doubleheader on Aug. 29 and 30; then to another doubleheader at the IndyCar Harvest Grand Prix on Oct. 2 and 3. The 2020 season ends in Florida at the Firestone Grand Prix of St. Petersburg on Oct. 25.
