## Mouser Electronics Signs Distribution Deal with NMB Technologies Corporation

**March 10, 2016** – [Mouser Electronics](http://www.mouser.com), Inc. today announced a global distribution agreement with [NMB Technologies Corporation](http://www.nmb-technologies.com), a leading manufacturer of electromechanical and thermal management components.

The [NMB product line](#), now available at Mouser Electronics, comprises AC and DC axial and high-power fans in varying sizes, input voltages, and air flow (cubic feet per minute, or CFM). Axial fans, the most common and cost-effective type of cooling fan, move air in a straight line — or axis — and work best in low-pressure and low-system-impedance environments.

NMB AC axial fans are available in 119mm and 150mm flanged housings with voltages from 100V to 240V, providing options for use in countries requiring varying mains voltages. NMB DC axial fans are available in 150mm rib-mount housing and 119mm, 150mm, and 172mm flange-mount housings in 12V, 24V, and 48V voltages.

This new distribution agreement provides Mouser Electronics' customers with a broad selection of axial fans for managing component temperature in [telecom](#), information technology, [industrial](#), and consumer-based applications.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 21 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is updated daily and searches more than 10 million products to locate over 4 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

### **About Mouser Electronics**

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 4 million products online from more than 500 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 500,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit [www.mouser.com](http://www.mouser.com).

### **About NMB**

NMB, a Minebea Group Company, is a volume leader in the design and manufacture of precision electro-mechanical components, including cooling fans and blowers, precision small motors and mechanical bearing assemblies, as well as a total solutions supplier of backlight and LED optical products. NMB products can be found in the personal computing, networking, telecommunications, home entertainment, home electronics, and automotive, medical and industrial markets.

### **Trademarks**

Mouser and Mouser Electronics are registered trademarks of Mouser Electronics, Inc. All other products, logos, and company names mentioned herein may be trademarks of their respective owners.
