For Immediate Release

Join Mouser Electronics at the 2019 ON Semiconductor Power Seminar *Global Distributor Sponsors Multi-City Power Supply Design Event*

April 15, 2019 – [Mouser Electronics](http://www.mouser.com), Inc., the New Product Introduction (NPI) leader empowering innovation, will proudly sponsor the [2019 ON Semiconductor Power Seminar](#). At the five-city seminar, occurring in April and May, engineers can experience an information-packed event that brings together technical knowledge, advanced power supply concepts, design principles with “hands-on” real-world application examples.

Join Mouser at the following 2019 ON Semiconductor Power Seminar events:

April 22, 2019: Seattle, USA

April 23, 2019: San Jose, Calif., USA

April 25, 2019: Minneapolis, Minn., USA

April 30, 2019: São Paulo, Brazil

May 2, 2019: Mexico City, Mexico

Engineers can stay up to date on the latest advancements in power supply design and listen to power experts discuss key industry trends. The highly educational, single-day event will also feature the newest and widest selection of power products from [ON Semiconductor](#) and other technologies available at Mouser.com for engineering design and prototype development.

Attendees will learn from in-depth technical discussions with practical applications, focusing on important topics such as power density through gallium nitride (GaN), options for power factor correction (PFC), active clamp flyback topology (ACF), and SPICE modeling methodologies.

To learn more and to register for the seminar, go to <https://eng.info.mouser.com/onsemi-power-seminars-2019>.

With its broad product line and unsurpassed customer service, Mouser strives to empower innovation among design engineers and buyers by delivering advanced technologies. Mouser stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is continually updated and offers advanced search methods to help customers quickly locate inventory. Mouser.com also houses data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a Berkshire Hathaway company, is an award-winning, authorized semiconductor and electronic component distributor focused on rapid New Product Introductions from its manufacturing partners for electronic design engineers and buyers. The global distributor's website, Mouser.com, is available in multiple languages and currencies and features more than 5 million products from over 750 manufacturers. Mouser offers 23 support locations around the world to provide best-in-class customer service and ships globally to over 600,000 customers in more than 220 countries/territories from its 750,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit www.mouser.com.

About ON Semiconductor

ON Semiconductor is driving energy efficient innovations, empowering customers to reduce global energy use. The company is a leading supplier of semiconductor-based solutions, offering a comprehensive portfolio of energy efficient, power management, analog, sensors, logic, timing, connectivity, discrete, SoC and custom devices. The company's products help engineers solve their unique design challenges in automotive, communications, computing, consumer, industrial, medical, aerospace and defense applications. ON Semiconductor operates a responsive, reliable, world-class supply chain and quality program, a robust compliance and ethics program, and a network of manufacturing facilities, sales offices and design centers in key markets throughout North America, Europe and the Asia Pacific regions.

Trademarks

Mouser and Mouser Electronics are registered trademarks of Mouser Electronics, Inc. All other products, logos, and company names mentioned herein may be trademarks of their respective owners.
