

For Immediate Release

Mouser Electronics Stocking Wide Portfolio of TE Connectivity Solutions

March 16, 2021 – [Mouser Electronics](http://www.mouser.com), Inc., the industry's leading New Product Introduction (NPI) distributor, is an authorized global distributor of solutions from [TE Connectivity](http://www.te-connectivity.com) (TE), a world leader in connectivity and sensors. With over 69,000 TE products, Mouser offers an ever-broadening selection of the newest TE interconnect, passive, and sensor solutions, constantly adding new products.

The following are just a few of the popular TE products available from Mouser:

TE's [MS5839-02BA](#) is an ultra-compact, chlorine-resistant digital pressure and temperature sensor that enables operation in harsh environments while providing accurate and reliable digital measurements. The 3.3 mm × 3.3 mm × 2.75 mm sensor is ideal for applications such as shallow diving computers, swim watches, fitness trackers, underwater vehicles, and diving equipment.

TE's [AMPMODU 2mm connector system headers and receptacles](#) occupy 38% less space than traditional 2.54 mm centerline products. The headers and receptacles are designed for use in applications such as PLC, servo drives, [industrial](#) controls, and material handling, where space constraints are of particular concern.

Hybrid and Electric Mobility Solutions ([HEMS](#)) [AMP+ high-current connector and header kits](#) provide conveniently packaged, low-cost solutions for low-quantity and prototype builds for eMobility applications. These kits offer one part number to order for all the correct components and a datasheet that provides easy access for future ordering.

TE's [IPX8 waterproof USB Type-C onboard receptacle](#) helps protect devices in harsh environments with industry-leading IPX8 ingress-resistance. The IPX8 rating enables the connector to maintain a reliable connection at a water depth of 1.5 meters for a minimum of 30 minutes. Waterproof USB Type-C connectors can be used for wearables, smartphones, appliances, [medical](#) devices and [automotive](#) infotainment.

As a testament to the strength of their distribution agreement, Mouser received the TE Global High Service Distributor of the Year Award in 2013, 2014, 2015, 2016, 2017, and again in 2019. In recent years, Mouser also received TE's APAC Customer Expansion Award, Japan Customer Expansion Award, and EMEA Customer Expansion Award. To learn more about the full spectrum of TE products available from Mouser, visit <https://www.mouser.com/manufacture/te-connectivity/>.

As a global authorized distributor, Mouser offers the world's widest selection of the newest semiconductors and electronic components — in stock and ready to ship. Mouser's customers can expect 100% certified, genuine products that are fully traceable from each of its manufacturer partners. To help speed customers' designs, Mouser's website hosts an extensive library of technical resources, including a [Technical Resource Center](#), along with product data sheets, supplier-specific reference designs, application notes, technical design information, engineering tools and other helpful information.

About Mouser Electronics

Mouser Electronics, a Berkshire Hathaway company, is an authorized semiconductor and electronic component distributor focused on New Product Introductions from its leading manufacturer partners. Serving the global electronic design engineer and buyer community, the global distributor's website, mouser.com, is available in multiple languages and currencies and features more than 5 million products from over 1,100 manufacturer brands. Mouser offers 27 support locations worldwide to provide best-in-class customer service in local language, currency and time zone. The distributor ships to over 630,000 customers in 223 countries/territories from its 1 million-square-foot, state-of-the-art distribution facilities in the Dallas, Texas, metro area. For more information, visit <https://www.mouser.com/>.

About TE Connectivity

TE Connectivity is a \$13 billion global industrial technology leader creating a safer, sustainable, productive, and connected future. Our broad range of connectivity and sensor solutions, proven in the harshest environments, enable advancements in transportation, industrial applications, medical technology, energy, data communications, and the home. With nearly 80,000 employees, including more than 8,000 engineers, working alongside customers in approximately 150 countries, TE ensures that EVERY CONNECTION COUNTS. Learn more at www.te.com.

Trademarks

Mouser and Mouser Electronics are registered trademarks of Mouser Electronics, Inc. TE, TE Connectivity and TE connectivity (logo) are trademarks of the TE Connectivity Ltd. family of companies.
