

For Immediate Release

Mouser-Backed Vaillante Rebellion Heads to Bahrain at Top of FIA WEC LMP2 Standings

November 15, 2017 – The [Mouser](#)-sponsored [Vaillante Rebellion](#) racing team scored a spectacular double-podium victory Nov. 5 at the 6 Hours of Shanghai. The victory at Shanghai is the second consecutive first-place finish for the No. 31 car and marks the team's seventh podium finish in eight races this season.

The No. 31 car, driven by Bruno Senna, Nicolas Prost and Julien Canal, took first place, while the No. 13, driven by Nelson Piquet Jr., Mathias Beche and David Heinemeier Hansson, finished third in the LMP2 category. The win moves the No. 31 car to the top of the LMP2 team classification of the FIA World Endurance Championship (WEC) with only one race to go.

With Senna behind the wheel, the Mouser-backed No. 31 car dominated the first 90 minutes of the race. Both cars overtook the Jackie Chan DC Racing No. 38 car in the last hour of the race to claim the first and third podium spots.

"Shanghai proved to be a thrilling race from the start to the extraordinary finish," said Todd McAtee, Mouser's Vice President of Americas Business Development. "The Vaillante Rebellion team has been exceptional all season, and all of us at Mouser are cheering them on as they prepare for Bahrain."

Mouser is proud to partner with valued supplier [LEMO](#), a global leader in the design and production of precision custom connection solutions, to sponsor Vaillante Rebellion for the entire 2017 FIA WEC season. Mouser distributes the full line of quality LEMO connector solutions including their original push-pull connectors.

Racing is all about speed and endurance, and Mouser sees racing sponsorships as an innovative way to communicate its performance-driven business model and promote the newest technologies from its manufacturer partners. The Mouser-backed Rebellion team ran away with the crown in the LMP1 Privateer Class in 2016.

The 2017 FIA WEC season ends Nov. 18 at the 6 Hours of Bahrain. The No. 31 car will defend its four-point lead in the LMP2 standings on the 15-turn, 3.36-mile (5.4-km) course at the Bahrain International Circuit.

With its broad product line and unsurpassed customer service, Mouser strives to empower innovation among design engineers and buyers by delivering advanced technologies. Mouser stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is continually updated and offers advanced search methods to help customers quickly locate inventory. Mouser.com also houses data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

About Mouser Electronics

Mouser Electronics, a Berkshire Hathaway company, is an award-winning, authorized semiconductor and electronic component distributor focused on rapid New Product Introductions from its manufacturing partners for electronic design engineers and buyers. The global distributor's website, Mouser.com, is available in multiple languages and currencies and features more than 4 million products from over 600 manufacturers. Mouser offers 22 support locations around the world to provide best-in-class customer service and ships globally to over 550,000 customers in 170 countries from its 750,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <https://www.mouser.com/>.

About LEMO

Lemo, a Swiss owned company, is a global leader in the design and manufacture of high quality precision custom connection solutions. LEMO connectors are exceptionally reliable and robust owing to the "Push-Pull" self-latching system. Known for quality and reliability, LEMO connectors can be found in many challenging and life saving applications including: medical, broadcast, test & measurement, aerospace, automotive and industrial.
