

## SMTV01 SERIES

### SURFACE MOUNT FLEXIBLE LIGHT PIPE ADAPTER WITH INTEGRATED LED

Bivar's SMTV01 Series provides a one-piece SMT solution to complete the 2mm Flexible Light Pipe system.

## FEATURES AND BENEFITS

- Optimized design maximizes light transmission without light bleeding from the board to the front panel.
- SMTV01 adapter features a small footprint (0606) and is ideally suited for use with Bivar's 2mm Flexible Light Pipe System.
- LED color options include four (4) single colors, three (3) bi-color configurations and a tri-color RGB LED with multiple luminous intensity output options.
- Flexible Light Pipe Adapters are offered in a wide range of intensity output options and are available in a variety of lens cap styles.
- Eliminates mounting holes and the manual insertion process required for traditional flexible light pipe adapters/systems.
- Eliminates the manual wave soldering needed for traditional discrete flexible light pipe adapters/systems.
