

MULTI CONCENTRIC CONTACT CONNECTORS

S and E Series multi concentric contact connectors

A new range of products dedicated to applications in which connectors need to function even in case of rotation. Similar to coaxial or triaxial connectors, these precision engineered connectors are fitted with multiple concentric electrical contacts.

The number of contacts ranges from 4 to 10 contacts. Connectors are available in various shell sizes. For an IP68 connector solution select the E series.

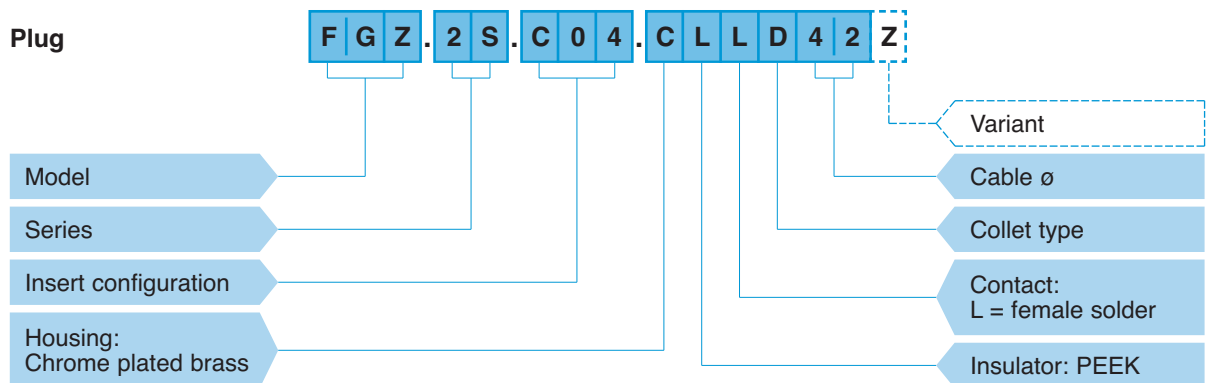

These contacts, designed for low-speed rotation, can last up to 10,000 rotation cycles. Unlike coaxial or triaxial connectors this range is not impedance controlled.

The contacts are recessed and scoop-proof. Applications include petroleum downhole drilling systems and turret applications, in other words, applications where the connection may require free rotation (instrumentation mast).

Part Numbering System

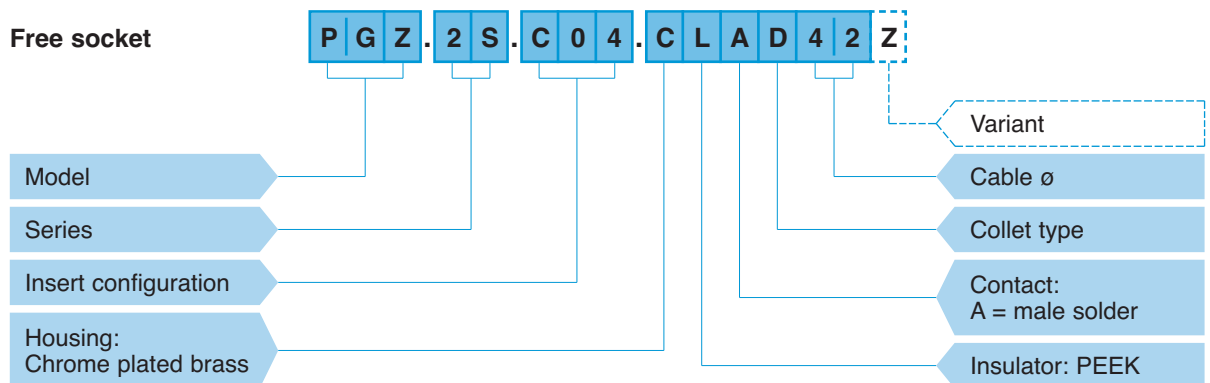

Plug

FGZ.2S.C04.CLLD42Z = Straight plug, cable collet, 2S series, concentric type with 4 contacts, outer shell in chrome-plated brass, PEEK insulator, female solder contacts, D type collet for 4.2 mm diameter cable and nut for fitting a bend relief.

FGZ.2E.C04.CLLC50 = Straight plug, cable collet, 2E series, concentric type with 4 contacts, outer shell in chrome-plated brass, PEEK insulator, female solder contacts, C type collet for 5.0 mm diameter cable.

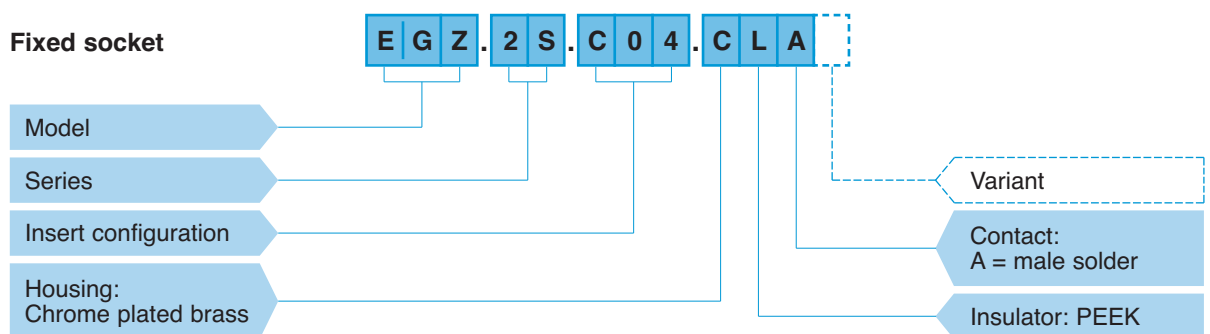

Free socket

PGZ.2S.C04.CLAD42Z = Free socket, cable collet, 2S series, concentric type with 4 contacts, outer shell in chrome-plated brass, PEEK insulator, male solder contacts, D type collet for 4.2 mm diameter cable and nut for fitting a bend relief.

PGZ.2E.C04.CLAC50 = Free socket, cable collet, 2E series, concentric type with 4 contacts, outer shell in chrome-plated brass, PEEK insulator, male solder contacts, C type collet for 5.0 mm diameter cable.

Fixed socket

EGZ.2S.C04.CLA = Fixed socket, nut fixing, 2S series, concentric type with 4 contacts, outer shell in chrome-plated brass, PEEK insulator, male solder contacts.

EGZ.2E.C04.CLA = Fixed socket, nut fixing, 2E series, concentric type with 4 contacts, outer shell in chrome-plated brass, PEEK insulator, male solder contacts.
