

Glow Wire Compliance Statement

All products described as “Glow Wire” compatible are produced with materials that comply with Glow Wire requirements for non-metallic materials supporting a current-carrying connection, as detailed in IEC 60335-1, Section 30 (GWFI and GWIT).

Customers shall determine whether the TE Connectivity Glow Wire compatible products are acceptable for a specific application through testing or other suitable method based on the relevant standard(s).

GWFI and GWIT values for the Glow Wire compatible materials used are certified by independent agencies. For any further details or information regarding end product performance please contact TE Connectivity.
